Dear Ms. Broadway,

This is to inform you that William Huntington, RN, has been terminated from New England Rehabilitation Hospital of Portland, effective July 26, 2004. Mr. Huntington was terminated for insufficient documentation of narcotic administration. This insufficient documentation came to light after a routine, random audit revealed that the withdrawal of narcotics from our Pyxis machines, specifically oxycodone, by Mr. Huntington were significantly higher than the next highest user. Chart reviews, completed by our Pharmacist and Nurse Manager, compared the drugs removed from the Pyxis to what was documented on the patients Medication Administration Records (MAR). There was a discrepancy between the doses removed and those documented as administered to several patients over the course of several months. This discrepancy totaled 216 doses.

Upon questioning, Mr. Huntington felt that he had perhaps forgotten to chart these medications on the MAR. As that is non compliant with our policy and procedure, we felt we must terminate his employment.

Our Director of Pharmacy has completed an investigation and has submitted a DEA 106 report to the Drug Enforcement Agency, the Board of Pharmacy and the Department of Health, Division of Licensing and Certification.

Please feel free to call me at 207-879-8485 with any questions or if you need any additional information.

Sincerely,

A handwritten signature in blue ink that reads "Elizabeth Glidden RN".
