Ms. Lisa-kay Keen  
Maine Department of Environmental Protection  
17 State House Station  
Augusta, ME 04333-0017

Dear Ms. Spencer-Famous and Ms. Keen:

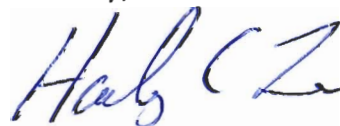

Maine Mountain Power, LLC (MMP) is pleased to submit this permit application for the proposed Redington wind farm.

This single permit application incorporates a request for a Land Use Regulation Commission (LURC) re-zoning, a LURC Application for Non-Residential Development (Supplement S-2), a LURC Application for Wetland Alterations (Supplement S-3) and an application for a permit from the Department of Environmental Protection (DEP) under the Site Location of Development Law.

Since this application was drafted over a period of time, it refers extensively to Redington Mountain Windpower, LLC or "RMW." On November 7, 2005, Redington Mountain Windpower, LLC signed a lease with Maine Mountain Power, LLC. (Maine Mountain Power, LLC is a joint development LLC set up by Endless Energy Corporation and a subsidiary of Edison Mission Group. There is more information about these companies within the application.) While RMW continues to own the land, Maine Mountain Power LLC, the project owner, is requesting the permits. Based on our discussions with you, we have not gone through the entire document and replaced all of the RMW references with MMP.

Thank you for your review of this application. We look forward to working with LURC and DEP on this project.

Sincerely,

Harley Lee,  
President, Endless Energy  
Corporation, a member of MMP
