

COASTAL COMMUNITY GRANTS: Water Quality & Land Use

Southern Maine Regional Planning and Development Commission York River Watershed Build-out Analysis

PARTNERS

The York River Study Committee which includes town-appointed members from Eliot, Kittery, South Berwick and York and agency representatives from the National Park Service, Wells National Estuarine Research Reserve, Maine Department of Transportation, and the Maine Coastal Program.

PROJECT DESCRIPTION (completed December 2018)

A build-out study of the York River watershed was prepared to provide information on the extent of development allowed under existing regulations and future scenarios and the potential impact on watershed resources under each scenario. The analysis was utilized to provide information to be used in developing resource protection strategies and guide changes to regulations for the long-term protection of resources as part of this project.
