Re: Recommendation by Bureau to DeList All 50 Milliliter Spirits Products

Dear Director Mineo:

The Commission members have received the Bureau's written recommendations relating to the proposed delisting of 50 ml spirit products. In addition to the statistical information you provided showing a recent increase in OUI convictions, Commission members have inquired whether there is data that shows the number of OUI related fatalities since 2010. Since this information may have relevance to the Commission's deliberations on the delisting proposal, if it exists and is available, we respectfully ask that it be provided in advance of the Commission meeting currently scheduled for July 11th.

Your attendance to this request would be greatly appreciated.

Sincerely,

Orland McPherson, Chair
State Liquor and Lottery Commission

cc: Mark Randlett, Assistant Attorney General
Andrew Black, Assistant Attorney General
