**ATTACHMENT A:
NASPO VALUEPOINT MASTER AGREEMENT TERMS AND CONDITIONS**

I. Definitions

- 1.1 Acceptance** means acceptance of goods and services as set forth in Section IX of this Master Agreement.
- 1.2 Contractor** means a party to this Master Agreement, whether a person or entity, that delivers goods or performs services under the terms set forth in this Master Agreement.
- 1.3 Embedded Software** means one or more software applications which permanently reside on a computing device.
- 1.4 Intellectual Property** means any and all patents, copyrights, service marks, trademarks, trade secrets, trade names, patentable inventions, or other similar proprietary rights, in tangible or intangible form, and all rights, title, and interest therein.
- 1.5 Lead State** means the State centrally administering any resulting Master Agreement(s) who is a party to this Master Agreement.
- 1.6 Master Agreement** means the underlying agreement executed by and between the Lead State, acting in cooperation with NASPO ValuePoint, and the Contractor, as now or hereafter amended.
- 1.7 NASPO ValuePoint** is a division of the National Association of State Procurement Officials (“NASPO”), a 501(c)(3) corporation. NASPO ValuePoint facilitates administration of the NASPO cooperative group contracting consortium of state chief procurement officials for the benefit of state departments, institutions, agencies, and political subdivisions and other eligible entities (i.e., colleges, school districts, counties, cities, some nonprofit organizations, etc.) for all states, the District of Columbia, and territories of the United States. NASPO ValuePoint is identified in the Master Agreement as the recipient of reports and may perform contract administration functions relating to collecting and receiving reports, as well as other contract administration functions as assigned by the Lead State.
- 1.8 Order or Purchase Order or Statement of Work** means any purchase order, sales order, contract or other document mutually executed by Contractor and a Purchasing Entity and used by a Purchasing Entity to order the Products, including but not limited to a subscription services agreement between the Contractor and Purchasing Entity.
- 1.9 Participating Addendum** means a bilateral agreement executed by a Contractor and a Participating Entity incorporating this Master Agreement and any additional Participating Entity-specific language or other requirements (e.g., ordering procedures specific to the Participating Entity, entity-specific terms and conditions, etc.).
- 1.10 Participating Entity** means a state (as well as the District of Columbia and US territories), city, county, district, other political subdivision of a State, or a nonprofit organization under the laws of some states properly authorized to enter into a Participating Addendum, that has executed a Participating Addendum.

if authorized by a Participating Addendum, that enters into a Purchase Order under the Master Agreement and becomes financially committed to the purchase.

II. Term of Master Agreement

- 2.1 Initial Term.** The initial term of this Master Agreement is for five (5) years. The term of this Master Agreement may be amended beyond the initial term for ten (10) additional years at the Lead State's discretion and by mutual agreement and upon review of requirements of Participating Entities, current market conditions, and Contractor performance. The Lead State may, prior to execution, adjust the effective date or duration of the initial term or renewal period of any Master Agreement for the purpose of making the Master Agreement coterminous with others.
- 2.2 Amendment Limitations.** The terms of this Master Agreement will not be waived, altered, modified, supplemented, or amended in any manner whatsoever without prior written agreement of the Lead State and Contractor.
- 2.3 Amendment Term.** The term of the Master Agreement may be amended past the initial term and stated renewal periods for a reasonable period if in the judgment of the Lead State a follow-on competitive procurement will be unavoidably delayed (despite good faith efforts) beyond the planned date of execution of the follow-on master agreement. This subsection will not be deemed to limit the authority of a Lead State under its state law to otherwise negotiate contract extensions.

III. Order of Precedence

- 3.1 Order.** Any Order placed under this Master Agreement will consist of the following documents:
- 3.1.1** A Participating Entity's Participating Addendum ("PA");
 - 3.1.2** This NASPO ValuePoint Master Agreement, including all attachments hereto;
 - 3.1.3** An Order or a Purchase Order or Statement of Work issued against the Master Agreement.
- 3.2 Conflict.** These documents will be read to be consistent and complementary. Any conflict among these documents will be resolved by giving priority to these documents in the order listed above, except that any conflicting term in a subscription services agreement negotiated and agreed to by a Purchasing Entity will take precedence as to that Purchasing Entity and Contractor. Contractor terms and conditions that apply to this Master Agreement are only those that are expressly accepted by the Lead State and must be in writing and attached to this Master Agreement as an Exhibit or Attachment.
- 3.3 Participating Addenda.** Participating Addenda will not be construed to diminish, modify, or otherwise derogate any provisions in this Master Agreement between the Lead State and Contractor. Except as permitted under this Master Agreement, Participating Addenda will not include a term of agreement that exceeds the term of the Master Agreement.

IV. Participants and Scope

- 4.1 Requirement for a Participating Addendum.** Contractor may not deliver Products under this Master Agreement until a Participating Addendum acceptable to the Participating Entity and Contractor is executed.
- 4.2 Applicability of Master Agreement.** These NASPO ValuePoint Master Agreement Terms and Conditions are applicable to any Order by a Participating Entity (and other Purchasing Entities covered by their Participating Addendum), except to the extent altered, modified, supplemented or amended by a Participating Addendum, subject to Section III. For the purposes of illustration and not limitation, this authority may apply to unique delivery and invoicing requirements, confidentiality requirements, defaults on Orders, governing law and venue relating to Orders by a Participating Entity, indemnification, and insurance requirements. Statutory or constitutional requirements relating to availability of funds may require specific language in some Participating Addenda in order to comply

**MASTER AGREEMENT NUMBER 18P 2308110000000000020 FOR
EPROCUREMENT SOLUTIONS AND SERVICES**

Between the **State of Maine** and
Ivalua

with applicable law. The expectation is that these alterations, modifications, supplements, or amendments will be addressed in the Participating Addendum or, with the consent of the Purchasing Entity and Contractor, may be included in the ordering document (e.g., purchase order or contract) used by the Purchasing Entity to place the Order.

- 4.3 Authorized Use.** Use of specific NASPO ValuePoint Master Agreements by state agencies, political subdivisions and other Participating Entities is subject to applicable state law and the approval of the respective State Chief Procurement Official. Issues of interpretation and eligibility for participation are solely within the authority of the respective State Chief Procurement Official.
- 4.4 Obligated Entities.** Obligations under this Master Agreement are limited to those Participating Entities who have signed a Participating Addendum and Purchasing Entities within the scope of those Participating Addenda. States or other entities permitted to participate may use an informal competitive process to determine which Master Agreements to participate in through execution of a Participating Addendum. Participating Entities incur no financial obligations on behalf of other Purchasing Entities.
- 4.5 Notice of Participating Addendum.** Contractor shall email a fully executed PDF copy of each Participating Addendum to pa@naspovaluepoint.org to support documentation of participation and posting in appropriate databases.
- 4.6 Eligibility for a Participating Addendum.** Eligible entities who are not states may under some circumstances sign their own Participating Addendum, subject to the consent of the Chief Procurement Official of the state where the entity is located. Coordinate requests for such participation through NASPO ValuePoint. Any permission to participate through execution of a Participating Addendum is not a determination that procurement authority exists; the entity must ensure that they have the requisite procurement authority to execute a Participating Addendum.
- 4.7 Prohibition on Resale.** Subject to any specific conditions included in the solicitation or Contractor's proposal as accepted by the Lead State, or as explicitly permitted in a Participating Addendum, Purchasing Entities may not resell Products purchased under this Master Agreement. Absent any such condition or explicit permission, this limitation does not prohibit: payments by employees of a Purchasing Entity for Products; sales of Products to the general public as surplus property; and fees associated with inventory transactions with other governmental or nonprofit entities and consistent with a Purchasing Entity's laws and regulations. Any sale or transfer permitted by this subsection must be consistent with license rights granted for use of intellectual property.
- 4.8 Individual Customers.** Except as may otherwise be agreed to by the Purchasing Entity and Contractor, each Purchasing Entity shall follow the terms and conditions of this Master Agreement and applicable Participating Addendum and will have the same rights and responsibilities for their purchases as the Lead State has in this Master Agreement and as the Participating Entity has in the Participating Addendum, including but not limited to any indemnity or right to recover any costs as such right is defined in this Master Agreement and applicable Participating Addendum for their purchases. Each Purchasing Entity will be responsible for its own charges, fees, and liabilities. The Contractor will apply the charges and invoice each Purchasing Entity individually.
- 4.9 Release of Information.** Throughout the duration of this Master Agreement, Contractor must secure from the Lead State prior approval for the release of information that pertains to the potential work or activities covered by the Master Agreement. This limitation does not preclude publication about the award of the Master Agreement or marketing activities consistent with any proposed and accepted marketing plan.
- 4.10 No Representations.** The Contractor shall not make any representations of NASPO ValuePoint, the Lead State, any Participating Entity, or any Purchasing Entity's opinion or position as to the quality or effectiveness of Product and Services that are the subject of this Master Agreement without prior written consent.

V. NASPO ValuePoint Provisions

5.1 Applicability. NASPO ValuePoint is not a party to this Master Agreement. The terms set forth in Section V are for the benefit of NASPO ValuePoint as a third-party beneficiary of this Master Agreement.

5.2 Administrative Fees

5.2.1 NASPO ValuePoint Fee. Contractor shall pay to NASPO ValuePoint, or its assignee, a NASPO ValuePoint Administrative Fee in the amount of one-quarter of one percent (0.25% or 0.0025) of fees for all Orders invoiced by Contractor each calendar quarter (less any charges for taxes or shipping) no later than sixty (60) days following the end of the calendar quarter. Any net credit (as a result of credits, refunds, or adjustments to a previously issued invoice) or deficit resulting from Contractor's revision of a previously submitted Sales Data report shall be applied to the amount owed for the following calendar quarter, except that deficits of \$25 or greater shall be payable immediately. Any deficit or credit owed at the termination Contractor's reporting obligations shall be paid to or by Contractor, as applicable, within thirty (60) days of the end of the applicable calendar quarter. The NASPO ValuePoint Administrative Fee is not negotiable. This fee is to be included as part of the pricing submitted with a vendor's response to the Lead State's solicitation.

5.2.2 State Imposed Fees. Some states may require an additional fee be paid by Contractor directly to the state on purchases made by Purchasing Entities within that state (to be negotiated between Contractor and Participating Entities). For all such requests, the fee rate or amount, payment method, and schedule for such reports and payments will be incorporated into the applicable Participating Addendum. Unless agreed to in writing by the state, Contractor may not adjust the Master Agreement pricing to include the state fee for purchases made by Purchasing Entities within the jurisdiction of the state. No such agreement will affect the NASPO ValuePoint Administrative Fee percentage or the prices paid by Purchasing Entities outside the jurisdiction of the state requesting the additional fee.

5.3 NASPO ValuePoint Summary and Detailed Usage Reports

5.3.1 Sales Data Reporting. In accordance with this section, Contractor shall report to NASPO ValuePoint all Orders under this Master Agreement for which Contractor has invoiced the ordering entity or individual, including Orders invoiced to Participating Entity or Purchasing Entity employees for personal use if such use is permitted by this Master Agreement and the applicable Participating Addendum ("Sales Data"). Timely and complete reporting of Sales Data is a material requirement of this Master Agreement. Reporting requirements, including those related to the format, contents, frequency, or delivery of reports, may be updated by NASPO ValuePoint with reasonable notice to Contractor and without amendment to this Master Agreement. NASPO ValuePoint shall have exclusive ownership of any media on which reports are submitted and shall have a perpetual, irrevocable, non-exclusive, royalty free, and transferable right to display, modify, copy, and otherwise use reports, data, and information provided under this section, except that NASPO ValuePoint will not publicly disclose, distribute, or display a Purchasing Entity's Sales Data if (i) the Sales Data is specifically identified by the Purchasing Entity as confidential, (ii) the Sales Data cannot be used in a way that does not identify the Purchasing Entity, (iii) Contractor promptly notifies NASPO ValuePoint of the existence of confidential data in Sales Data submitted to NASPO ValuePoint, and (iv) the Purchasing Entity that owns the Sales Data has not provided prior written consent. For the avoidance of doubt, NASPO ValuePoint does not need prior consent to display, modify, copy, or use Sales Data that is considered public information in the Purchasing Entity's jurisdiction.

Between the **State of Maine** and

- 5.3.2 Summary Sales Data.** “Summary Sales Data” is Sales Data reported as cumulative totals by state. Contractor shall, using the reporting tool or template provided by NASPO ValuePoint, report Summary Sales Data to NASPO ValuePoint for each calendar quarter no later than thirty (30) days following the end of the quarter. If Contractor has no reportable Sales Data for the quarter, Contractor shall submit a zero-sales report.
- 5.3.3 Detailed Sales Data.** “Detailed Sales Data” is Sales Data that includes for each Order all information required by the Solicitation or by NASPO ValuePoint, including customer information, Order information, and line-item details. Contractor shall, using the reporting tool or template provided by NASPO ValuePoint, report Detailed Sales Data to NASPO ValuePoint for each calendar quarter no later than thirty (30) days following the end of the quarter. Detailed Sales Data shall be reported in the format provided in the Solicitation or provided by NASPO ValuePoint. The total sales volume of reported Detailed Sales Data shall be consistent with the total sales volume of reported Summary Sales Data.
- 5.3.4 Sales Data Crosswalks.** Upon request by NASPO ValuePoint, Contractor shall provide to NASPO ValuePoint tables of customer and Product information and specific attributes thereof for the purpose of standardizing and analyzing reported Sales Data (“Crosswalks”). Customer Crosswalks must include a list of existing and potential Purchasing Entities and identify for each the appropriate customer type as defined by NASPO ValuePoint. Product Crosswalks may also include Contractor’s part number or SKU for each Product in Offeror’s catalog and identify for each the appropriate Master Agreement category (and subcategory, if applicable), manufacturer part number, product description, eight-digit UNSPSC Class Level commodity code, and (if applicable) EPEAT value and Energy Star rating. Crosswalk requirements and fields may be updated by NASPO ValuePoint with reasonable notice to Contractor and without amendment to this Master Agreement. Contractor shall work in good faith with NASPO ValuePoint to keep Crosswalks updated as Contractor’s customer lists and product catalog change.
- 5.3.5 Executive Summary.** Contractor shall, upon request by NASPO ValuePoint, provide NASPO ValuePoint with an executive summary that includes but is not limited to a list of states with an active Participating Addendum, states with which Contractor is in negotiations, and any Participating Addendum roll-out or implementation activities and issues. NASPO ValuePoint and Contractor will determine the format and content of the executive summary.

5.4 NASPO ValuePoint Cooperative Program Marketing, Training, and Performance Review

- 5.4.1 Staff Education.** Contractor shall work cooperatively with NASPO ValuePoint personnel. Contractor shall present plans to NASPO ValuePoint for the education of Contractor’s contract administrator(s) and sales/marketing workforce regarding the Master Agreement contract, including the competitive nature of NASPO ValuePoint procurements, the master agreement and participating addendum process, and the manner in which eligible entities can participate in the Master Agreement.
- 5.4.2 Onboarding Plan.** Upon request by NASPO ValuePoint, Contractor shall, as Participating Addendums are executed, provide plans to launch the program for the Participating Entity. Plans will include time frames to launch the agreement.
- 5.4.3 Annual Contract Performance Review.** Contractor shall participate in an annual contract performance review with the Lead State and NASPO ValuePoint, which may at the discretion of the Lead State be held in person and which may include a discussion of marketing action plans, target strategies, marketing materials, Contractor reporting, and timeliness of payment of administration fees.

Between the **State of Maine** and

- 5.4.4 Use of NASPO ValuePoint Logo.** The NASPO ValuePoint logos may not be used by Contractor in sales and marketing until a separate logo use agreement is executed with NASPO ValuePoint.
- 5.4.5 Obligation to Act in Good Faith.** The parties acknowledge that this Master Agreement and its terms and pricing have been negotiated for the benefit of the parties, NASPO ValuePoint, Participating Entities, and Purchasing Entities. Apart from a Participating Addendum or Order, Contractor shall not intentionally induce a potential Participating Entity or Purchasing Entity to enter into a separate agreement, the pricing and terms of which are derived from this Master Agreement, for the purpose of avoiding compliance with Contractor's obligations under Section V. Nothing in this Section 5.4.5 shall prohibit Contractor from contracting with an entity with substantially similar pricing and terms if such pricing and terms are independently negotiated with the entity or are consistent with pricing and terms ordinarily offered by Contractor to its customers.
- 5.5 Cancellation.** In consultation with NASPO ValuePoint, the Lead State may cancel the Master Agreement or not exercise an option to renew, when utilization of Contractor's Master Agreement does not warrant further administration of the Master Agreement. Cancellation based on nonuse or under-utilization will not occur sooner than two years after execution of the Master Agreement. This subsection does not limit the discretionary right of either the Lead State or Contractor to cancel the Master Agreement or terminate for default subject to the terms herein. This subsection also does not limit any right of the Lead State to cancel the Master Agreement under applicable laws.
- 5.6 Canadian Participation.** Subject to the approval of Contractor, any Canadian provincial government or provincially funded entity in Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador, Nova Scotia, Ontario, Prince Edward Island, Quebec, or Saskatchewan, and territorial government or territorial government funded entity in the Northwest Territories, Nunavut, or Yukon, including municipalities, universities, community colleges, school boards, health authorities, housing authorities, agencies, boards, commissions, and crown corporations, may be eligible to use Contractor's Master Agreement.
- 5.7 Additional Agreement with NASPO.** Upon request by NASPO ValuePoint, awarded Contractor shall enter into a direct contractual relationship with NASPO ValuePoint related to Contractor's obligations to NASPO ValuePoint under the terms of this Master Agreement, the terms of which shall be the same or similar (and not less favorable) than the terms set forth in this Master Agreement.

VI. Pricing, Payment & Leasing

- 6.1 Pricing.** The prices contained in this Master Agreement or offered under this Master Agreement represent the not-to-exceed price to any Purchasing Entity for the packages, modules or options specified. Changes to selected packages, modules or options may result in changes to price.
- 6.1.1** All prices and rates must be guaranteed for the initial term of the Master Agreement.
- 6.1.2** Following the initial term of the Master Agreement, any request for a price or rate adjustment must be for an equal guarantee period and must be made at least sixty (60) days prior to the effective date.
- 6.1.3** Requests for a price or rate adjustment must include sufficient documentation supporting the request. Any adjustment or amendment to the Master Agreement will not be effective unless approved in writing by the Lead State.
- 6.1.4** No retroactive adjustments to prices or rates will be allowed.
- 6.2 Payment.** Unless otherwise agreed upon in a Participating Addendum or Order or Statement of Work, Payment is due thirty (30) days following the Purchasing Entity's receipt of a correct invoice, the date

**MASTER AGREEMENT NUMBER 18P 2308110000000000020 FOR

of which shall be no earlier than commencement of a subscription term or the date of Acceptance of a Product, milestone, or other deliverable set forth in an Order or Statement of Work, as applicable. After forty-five (45) days the Contractor may assess overdue account charges up to a maximum rate of one percent per month on the outstanding balance, unless a different late payment amount is specified in a Participating Addendum or Order, or otherwise prescribed by applicable law. Payments will be remitted in the manner specified in the Participating Addendum or Order. Payments may be made via a purchasing card with no additional charge.

6.3 Reserved.

VII. Ordering

7.1 Order Numbers. Master Agreement order and purchase order numbers must be clearly shown on all acknowledgments, packing slips, invoices, and on all correspondence.

7.2 Quotes. Purchasing Entities may define entity-specific or project-specific requirements and informally compete the requirement among companies having a Master Agreement on an “as needed” basis. This procedure may also be used when requirements are aggregated or other firm commitments may be made to achieve reductions in pricing. This procedure may be modified in Participating Addenda and adapted to the Purchasing Entity’s rules and policies. The Purchasing Entity may in its sole discretion determine which Master Agreement Contractors should be solicited for a quote. The Purchasing Entity may select the quote that it considers most advantageous, cost, and other factors considered.

7.3 Applicable Rules. Each Purchasing Entity will identify and utilize its own appropriate purchasing procedure and documentation. Contractor is expected to become familiar with the Purchasing Entities’ rules, policies, and procedures regarding the ordering of supplies and/or services contemplated by this Master Agreement.

7.4 Required Documentation. Contractor shall not begin work without an executed Purchase Order or Order between Contractor and the applicable Purchasing Entity.

7.5 Term of Purchase. Orders may be placed consistent with the terms of this Master Agreement and applicable Participating Addendum during the term of the Master Agreement and Participating Addendum.

7.5.1 Orders must be placed pursuant to this Master Agreement prior to the termination date thereof, but may have a delivery date or performance period up to 120 days past the then-current termination date of this Master Agreement. Unless a shorter period is specified in the applicable Participating Addendum, an Order for a multi-year subscription may have a performance period up to five (5) years past the then-current termination date of this Master Agreement.

7.5.2 Notwithstanding the previous, Orders must also comply with the terms of the applicable Participating Addendum, which may further restrict the period during which Orders may be placed or delivered.

7.5.3 Financial obligations of Purchasing Entities payable after the current applicable fiscal year are contingent upon agency funds for that purpose being appropriated, budgeted, and otherwise made available. Cancellation of a Participating Addendum or Order due to non-appropriation of funds shall be addressed in the applicable Participating Addendum.

7.5.4 Notwithstanding the expiration, cancellation or termination of this Master Agreement, Contractor shall perform in accordance with the terms of any Orders then outstanding at the time of such expiration or termination. Contractor shall not honor any Orders placed

**MASTER AGREEMENT NUMBER 18P 2308110000000000020 FOR
EPROCUREMENT SOLUTIONS AND SERVICES**

Between the **State of Maine** and
Ivalua

after the expiration, cancellation, or termination of this Master Agreement, or in any manner inconsistent with this Master Agreement's terms.

7.5.5 Orders for any separate indefinite quantity, task order, or other form of indefinite delivery order arrangement priced against this Master Agreement may not be placed after the expiration or termination of this Master Agreement, notwithstanding the term of any such indefinite delivery order agreement.

7.6 Order Form Requirements. All Orders pursuant to this Master Agreement, at a minimum, must include:

7.6.1 The Product and Services to be provided;

7.6.2 A shipping address and other delivery requirements, if any;

7.6.3 A billing address;

7.6.4 Purchasing Entity contact information;

7.6.5 Pricing consistent with this Master Agreement and applicable Participating Addendum and as may be adjusted by agreement of the Purchasing Entity and Contractor; and

7.6.6 The Master Agreement number or the applicable Participating Addendum number, provided the Participating Addendum references the Master Agreement number.

7.7 Communication. All communications concerning administration of Orders placed must be furnished solely to the authorized purchasing agent within the Purchasing Entity's purchasing office, or to such other individual identified in writing in the Order.

7.8 Contract Provisions for Orders Utilizing Federal Funds. Pursuant to Appendix II to 2 Code of Federal Regulations (CFR) Part 200, Contract Provisions for Non-Federal Entity Contracts Under Federal Awards, Orders funded with federal funds may have additional contractual requirements or certifications that must be satisfied at the time the Order is placed or upon delivery. Applicable federal requirements specific to a federal funding source used by a Participating Entity or Purchasing Entity must be included in the applicable Participating Addendum or Order placed under this Master Agreement. Notwithstanding the previous, Contractor is wholly responsible for complying with federal law applicable to the provision of the contracted services without additional notice by a Participating Entity or Purchasing Entity.

VIII. Reserved

IX. Inspection and Acceptance (for Fixed Fee Professional Services)

9.1 Laws and Regulations. Any and all deliverables furnished must comply fully with all Federal, State, and local laws and regulations applicable to the provision of the contracted services.

9.2 Applicability. Unless otherwise specified in the Master Agreement, Participating Addendum, or Order, the terms of this Section IX will apply. This section is not intended to limit rights and remedies under the applicable commercial code.

9.3 Inspection. All deliverables under a fixed fee Statement of Work are subject to inspection at reasonable times and places before Acceptance and as reasonably necessary. Contractor shall provide right of access to the Lead State, or to any other authorized agent or official of the Lead State or other Participating or Purchasing Entity, at reasonable times, to monitor and evaluate performance, compliance, and/or quality assurance requirements under this Master Agreement.

9.3.1 Products that do not meet the acceptance criteria set forth in the Statement of Work may be rejected. Failure to reject upon receipt, however, does not relieve the contractor of

**MASTER AGREEMENT NUMBER 18P 2308110000000000020 FOR
EPROCUREMENT SOLUTIONS AND SERVICES**

Between the **State of Maine** and
Ivalua

liability for material (nonconformity that substantial impairs value) latent or hidden defects subsequently revealed when goods are put to use.

- 9.4 Failure to Conform.** If the deliverables do not conform to the acceptance criteria as agreed by Contractor and set forth in the applicable Statement of Work after completion of the user acceptance testing, the Purchasing Entity may require the Contractor to re-perform the services in conformity with such acceptance criteria, at no increase in fees as provided in such Statement of Work. - 12.2 Intellectual Property Indemnification.** The Contractor shall defend and indemnify any claim against NASPO, NASPO ValuePoint, the Lead State, Participating Entities, Purchasing Entities, along with their officers and employees ("Indemnified Party") by a third party to the extent such claim alleges use of the Product (as authorized in this Agreement) by the Participating Entities or Purchasing Entities directly infringes the US or Canada Intellectual Property rights of another person or entity ("Intellectual Property Claim"). - 12.2.1** Notwithstanding the foregoing, Contractor's defense and indemnity obligations do not apply to (1) any modification of the Product made by anyone other than Contractor; to the extent that the Cloud Service would not be infringing but for such modification and such modification was not directed by Contractor, (2) any use of the Product in combination with software, products or services not provided by Contractor; to the extent that the Product would not be infringing but for such combination and such combination was not directed by Contractor, (3) any Third-Party Applications not provided by Contractor, or (4) Customer's use of the Product not in compliance with the terms of this Agreement; to the extent the Product would not be infringing but for such non-compliance. The indemnified Party may appear in connection with such claims, at its own expense, through counsel reasonably acceptable to the indemnifying Party. Even if the Indemnified Party fails to provide reasonable notice, the Contractor shall not be relieved from its obligations unless the Contractor can demonstrate that it was prejudiced in defending the Intellectual Property Claim resulting in increased expenses or

- 12.2.3** The Indemnified Party shall furnish, at the Contractor's reasonable request and expense, information and assistance necessary for such defense. If the Contractor fails to vigorously pursue the defense or settlement of the Intellectual Property Claim, the Indemnified Party may assume the defense or settlement of the Intellectual Property Claim and the Contractor shall be liable for all costs and expenses, including reasonable attorneys' fees and related costs, incurred by the Indemnified Party in the pursuit of the Intellectual Property Claim.
- 12.2.4** Unless otherwise set forth herein, Section 12.2 is not subject to any limitations of liability in this Master Agreement or in any other document executed in conjunction with this Master Agreement.

XIV. General Provisions

14.1 Records Administration and Audit

14.1.1 The Contractor shall maintain books, records, documents, and other evidence pertaining to this Master Agreement and Orders placed by Purchasing Entities under it to the extent and in such detail as will adequately confirm Contractor's compliance with the terms of this Master Agreement and reflect payments and fees owed hereunder. Any such inspection may take place no more than once per entity per each five year period, shall be preceded by reasonable prior written notice, is subject to an appropriate confidentiality agreement, and will be performed at the Auditing Party's sole cost, except that costs associated with an audit that results in a finding of Contractor's noncompliance with the obligations of this Master Agreement shall be paid or reimbursed by Contractor. This right will survive for a period of six (6) years following termination of this Agreement or final payment for any order placed by a Purchasing Entity against this Master Agreement, whichever is later, or such longer period as is required by the Purchasing Entity's state statutes, to assure compliance with the terms hereof.

14.1.2 Without limiting any other remedy available to any governmental entity, the Contractor shall reimburse the applicable Lead State, Participating Entity, or Purchasing Entity for any overpayments inconsistent with the terms of the Master Agreement or Orders or underpayment of fees found as a result of the examination of the Contractor's records.

14.1.2.1 The rights and obligations herein exist in addition to any quality assurance obligation in the Master Agreement that requires the Contractor to self-audit contract obligations and that permits the Lead State to review compliance with those obligations.

Contractor shall notify the Lead State of a pending assignment (i) no fewer than 60 days prior to the effective date of the assignment or (ii) as soon as permitted pursuant to the applicable transaction. 14.6 Cancellation. Unless otherwise set forth herein, this Master Agreement may be canceled by either party upon sixty (60) days' written notice prior to the effective date of the cancellation. Further, any Participating Entity may cancel its participation upon thirty (30) days' written notice, unless otherwise limited or stated in the Participating Addendum. Any cancellation under this provision will not affect the rights and obligations attending Orders outstanding at the time of cancellation, including any right of a Purchasing Entity to indemnification by the Contractor, rights of payment for Products delivered and accepted, rights attending any warranty or default in performance in association with any Order, and requirements for records administration and audit. Cancellation of the Master Agreement due to Contractor default may be immediate.

- 14.8.1.4** Institution of proceedings under any bankruptcy, insolvency, reorganization or similar law, by or against Contractor, or the appointment of a receiver or similar officer for Contractor or any of its property, which is not vacated or fully stayed within forty-five (45) calendar days after the institution or occurrence thereof; or
- 14.8.1.5** Any default specified in another section of this Master Agreement.
- 14.8.2** Upon the occurrence of an event of default, the non-breaching party shall issue a written notice of default, identifying the nature of the default, and providing a period of thirty (30) calendar days in which to cure the default. The Lead State shall not be required to provide advance written notice or a cure period and may immediately terminate this Master Agreement in whole or in part if the Lead State, in its sole discretion, determines that it is reasonably necessary to preserve public safety or prevent immediate public crisis. Time allowed for cure will not diminish or eliminate a party's liability for damages, including liquidated damages to the extent provided for under the relevant Participating Addendum.
- 14.8.3** If a party is afforded an opportunity to cure and fails to cure the default within the period specified in the written notice of default or if such default cannot be cured, such party shall be in breach of its obligations under this Master Agreement and the non-breaching party shall have the right to exercise any or all of the following remedies:

Unless otherwise specified in an Order, a Purchasing Entity shall provide written notice of default as described in this section and have all of the rights and remedies under this paragraph and any applicable Participating Addendum with respect to an Order placed by the Purchasing Entity. Nothing in these Master Agreement Terms and Conditions will be construed to limit the rights and remedies available to a Purchasing Entity under the applicable commercial code.
- 14.8.5 Effect of Termination.** Upon the expiration or termination of this Master Agreement for any reason, Orders will no longer be accepted from Purchasing Entities after the effective date of the termination, and following completion of an Order accepted prior to the effective date of the termination, all Submitted Data of the Purchasing Entity will be returned at no additional cost by Contractor in its original format for uploaded documents and in a standard database backup format for data stored into the application database, provided Purchasing Entity requests return of Submitted Data of Purchasing Entity within thirty (30) days of termination of the Master Agreement. Return of Submitted Data in an alternative format may be accomplished at additional cost subject to execution of a SOW. After thirty (30) days, Contractor will delete all Purchasing Entity environments and any Submitted Data of Purchasing Entity contained therein, except for archived backups (which are handled in accordance with Contractor's standard backup policies) or if Contractor is

required to retain a copy of such Submitted Data of Purchasing Entity for legal purposes, provided that such copy remains subject to the confidentiality provisions of this Agreement.

- 14.9 Waiver of Breach.** Failure of a party to declare a default or enforce any rights and remedies will not operate as a waiver under this Master Agreement, any Participating Addendum, or any Purchase Order. Any waiver must be in writing. Waiver by a party of any default, right or remedy under this Master Agreement or Participating Addendum, or by Purchasing Entity with respect to any Purchase Order, or breach of any terms or requirements of this Master Agreement, a Participating Addendum, or Purchase Order will not be construed or operate as a waiver of any subsequent default or breach of such term or requirement, or of any other term or requirement under this Master Agreement, any Participating Addendum, or any Purchase Order.
- 14.10 Debarment.** The Contractor certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in public procurement or contracting by any governmental department or agency. This certification represents a recurring certification made at the time any Order is placed under this Master Agreement. If the Contractor cannot certify this statement, attach a written explanation for review by the Lead State.
- 14.11 No Waiver of Sovereign Immunity**
- 14.11.1** In no event will this Master Agreement, any Participating Addendum or any contract or any Purchase Order issued thereunder, or any act of the Lead State, a Participating Entity, or a Purchasing Entity be a waiver of any form of defense or immunity, whether sovereign immunity, governmental immunity, immunity based on the Eleventh Amendment to the Constitution of the United States or otherwise, from any claim or from the jurisdiction of any court.
- 14.11.2** This section applies to a claim brought against the Participating Entities who are states only to the extent Congress has appropriately abrogated the state's sovereign immunity and is not consent by the state to be sued in federal court. This section is also not a waiver by the state of any form of immunity, including but not limited to sovereign immunity and immunity based on the Eleventh Amendment to the Constitution of the United States.
- 14.12 Governing Law and Venue**
- 14.12.1** The procurement, evaluation, and award of the Master Agreement will be governed by and construed in accordance with the laws of the Lead State sponsoring and administering the procurement. The construction and effect of the Master Agreement after award will be governed by the law of the state serving as Lead State. The construction and effect of any Participating Addendum or Order against the Master Agreement will be governed by and construed in accordance with the laws of the Participating Entity's or Purchasing Entity's state.
- 14.12.2** Unless otherwise specified in the RFP, the venue for any protest, claim, dispute or action relating to the procurement, evaluation, and award is in the state serving as Lead State. Venue for any claim, dispute or action concerning the terms of the Master Agreement will be in the state serving as Lead State. Venue for any claim, dispute, or action concerning any Order placed against the Master Agreement or the effect of a Participating Addendum will be in the Purchasing Entity's state.
- 14.12.3** If a claim is brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court for (in decreasing order of priority): the Lead State for claims relating to the procurement, evaluation, award, or contract performance or administration if the Lead State is a party; a Participating State if a named

party; the state where the Participating Entity or Purchasing Entity is located if either is a named party.

14.13 Survivability. Unless otherwise explicitly set forth in a Participating Addendum or Order, the terms of this Master Agreement as they apply to the Contractor, Participating Entities, and Purchasing Entities, including but not limited to pricing and the reporting of sales and payment of administrative fees to NASPO ValuePoint, shall survive expiration of this Master Agreement and shall continue to apply to all Participating Addenda and Orders until the expiration thereof.

14.14 Limitation of Liability

14.14.1 Each Party's total liability to the other Party for any direct damages arising out of or relating to the Product and Services provided under this Master Agreement shall be limited to the greater of (i) the total amount of fees paid to Contractor by the other party in the twenty-four (24) months immediately preceding the claim, and (ii) \$500,000 ("Maximum Aggregate Cumulative Liability Cap"). The existence of more than one claim shall not expand the limit in this Section.

14.14.2 Unless otherwise specified in the Participating Addendum, for direct damages arising out of or relating to the Services provided under a Participating Addendum, the limitation set forth in 14.14.1 shall apply as between the Participating Entity and Contractor and between Purchasing Entity and Contractor. The existence of more than one claim shall not expand the limit in this Section.

14.14.3 For avoidance of doubt, the Maximum Aggregate Cumulative Liability Cap is intended to establish a cap per entity regardless of whether any entity also acts as a Purchasing Entity, a Participating Entity and/or the Lead State or all of the above.

14.14.4 Exclusions. This Section 14.14 shall not apply to (1) the general indemnification obligations, (2) amounts finally awarded pursuant to the intellectual property indemnification obligations, (3) gross negligence or willful misconduct of either party, Participating Entity or Purchasing Entity, (4) breach of confidentiality obligations that result in an unauthorized disclosure of confidential information, (5) the amount of fees owed by a Purchasing Entity under this Master Agreement or the Participating Addendum, or (6) Purchasing Entity's material breach of the license restrictions set forth in the subscription services agreement and Participating Addendum. Nothing herein shall prohibit a Participating Entity or Purchasing Entity from imposing liquidated damages, subject to the limitations set forth in Section 14.14.1 and Section 14.14.2, if agreed to by the parties in a Participating Addendum or Order.

14.15 Exclusion of Damages. IN NO EVENT WILL CONTRACTOR, NASPO, NASPO VALUEPOINT, THE LEAD STATE, PARTICIPATING ENTITIES, AND PURCHASING ENTITIES, BE LIABLE TO ANY OF THE FOREGOING FOR INDIRECT, SPECIAL, INCIDENTAL, EXEMPLARY, PUNITIVE, TREBLE, OR CONSEQUENTIAL DAMAGES ARISING OUT OF OR RELATING TO THIS MASTER AGREEMENT OR PARTICIPATING ADDENDUM, HOWEVER CAUSED, AND BASED ON ANY THEORY OF LIABILITY, WHETHER FOR BREACH OF CONTRACT, BREACH OF WARRANTY, TORT (INCLUDING NEGLIGENCE), PRODUCT LIABILITY, OR OTHERWISE, EVEN IF SUCH PARTY IS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

- 4.2.1** The Supplier Enablement/Management component, in conjunction with the Supplier Portal, must support all procurement activities and provide suppliers the ability to establish and maintain an account defining who they are and what they sell along with other key data elements required by the Participating Entity or Purchasing Entity to procure from and pay the supplier. Suppliers will use this account to access all relevant electronic procurement and financial functionalities such as solicitations, solicitation response, order receipts, contract awards, load sales reports, and submit invoices.
- 4.2.2** This functionality should also provide capabilities to establish and maintain pre-qualified suppliers lists for bidding on specific categories of goods/services.
- 4.2.3** Integration may be required with the Participating Entity or Purchasing Entity finance system to establish and maintain supplier payee records needed for accounts payable (A/P) processing.

4.3 Buyer Portal

- 4.3.1** The Buyer Portal component of the system must provide functionality that acts as a personalized single point of entry (“front door”) to initiate the full life cycle of procurement activities for Participating Entity and Purchasing Entity users. Catalog content can be hosted within the system or made available by 'punching out' to the supplier's shopping website. Contract catalogs must be capable of being automatically generated as part of the award process through integration with the Sourcing and the Contract Management component of the system. Maintenance of contract catalog content throughout the life of the contract/agreement must be available through integration with the Contract Management component of the system.
- 4.6.2** Other key components include utilities for suppliers to setup, manage and maintain their catalogs. User access to these utilities should be controlled through definition and assignment of roles. Workflow functionality should also be available to automate authorized Participating Entity and Purchasing Entity user review and approval of catalog content before it is made available.
- 4.6.3** The solution must provide an open marketplace environment that provides access to the aforementioned catalog components and to other non-contract, external internet retail or commercial markets of goods/services, as authorized by the Participating Entity or Purchasing Entity. This environment provides the buyer with a supported "catalog of catalogs" shopping experience with a single view of all sources as described in Section 4.5 (Request through Pay). The objective of this experience is to give the user options to make the best possible purchasing decision that optimizes price, quality, terms/conditions, and policies. The data must be collected in a manner that allows for reporting and analysis. The solution will provide the Participating Entity or Purchasing Entity with a means to assess, track, manage and report supplier performance across all procurement activities and include capabilities to capture and address performance complaints/issues.

4.10 Purchasing/Data Analytics

Either Party may terminate this Agreement or any Order by written notice if the other Party is in material breach of this Agreement, where such material breach is not cured within thirty (30) days after written notice of such breach from the non-breaching Party or with immediate effect where such material breach cannot be cured. For the avoidance of doubt, Customer's noncompliance with Section 2.3 is deemed a material breach of this Agreement. This Agreement may be terminated by either Party with immediate effect upon the occurrence of a Bankruptcy Event regarding the other Party. **"Bankruptcy Event"** means the occurrence of any one or more of the following events in respect to a Party: (a) it ceases to carry on its business; (b) a receiver or similar officer is appointed for its business, property, affairs or revenues and such proceedings continue for forty-five (45) days; (c) it becomes insolvent, admits in writing its inability to pay debts generally as they come due, is adjudicated bankrupt, or enters composition proceedings, makes an assignment for the benefit of its creditors or another arrangement of similar import; or (d) proceedings under bankruptcy or insolvency laws are commenced by or against it and are not dismissed or withdrawn within forty-five (45) days.

6.5 Effect of Termination. Upon the expiration or termination of this Agreement for any reason: (a) all outstanding Orders and access to the Services will automatically terminate; (b) all outstanding payment obligations of Customer will become due and payable immediately; and (c) all Submitted Data will be returned at no additional cost by Ivalua in its original format for uploaded documents and in a standard database backup format for data stored into the application database, provided Customer requests return of Submitted Data within thirty (30) days of termination of the Agreement. Return of Submitted Data in an alternative format may be accomplished at additional cost subject to execution of a SOW. After thirty (30) days, Ivalua will delete all Customer environments and any Submitted Data contained therein, except for archived backups (which are handled in accordance with Ivalua's standard backup policies) or if Ivalua is required to retain a copy of such Submitted Data for legal purposes, provided that such copy remains subject to the confidentiality provisions of this Agreement.

6.6 Survival. The Sections titled "Fees; Payment; Taxes," "Proprietary Rights," "Term and Termination; Suspension," "Confidentiality," "Limitation of Liability," and "General Provisions" will survive the expiration or termination of this Agreement for any reason.

7. CONFIDENTIALITY

7.1 Confidentiality Obligations. Upon termination of this Agreement for any reason, the Receiving Party shall (i) immediately cease use of the Disclosing Party's Confidential Information; and (ii) if requested by Disclosing Party, either promptly destroy or return all Confidential Information of the Disclosing Party; provided, however, that the Receiving Party may retain a reasonable number of copies of the Confidential Information for the sole purpose of satisfying legal or regulatory requirements regarding record and data retention that the Receiving Party is obligated to comply with, enforcing this Agreement or archiving consistent with good business practices. For the avoidance of doubt, such copies remain subject to confidentiality and restricted use provisions of this Agreement.

8. DATA PROTECTION AND PRIVACY

8.1 Protection of Submitted Data. Ivalua will maintain appropriate administrative, physical, and technical safeguards for protection of the security and integrity of Submitted Data, including a written information security program of policies, procedures and controls ("**Security Program**"). Ivalua's Security Program is attached as Schedule 3 and is hereby incorporated into this Agreement. The Security Program includes industry standard practices designed to protect Submitted Data from unauthorized access, acquisition, use, disclosure, or destruction. Ivalua may periodically review and update the Security Program, provided that any such update does not materially reduce the overall level of security provided to Customer as described herein.

8.2 Responsibilities of Ivalua. Ivalua shall not (a) modify Submitted Data, (b) disclose Submitted Data except as compelled by law or as expressly permitted in writing by Customer, or (c) access Submitted Data except to provide the Services and prevent or address service or technical problems, or at Customer's request in connection with Customer support matters. Notwithstanding the foregoing, Ivalua reserves the right to access, alter, and/or remove Submitted Data if such Submitted Data violates this Agreement, or negatively impacts Ivalua's Services or Ivalua's ability to provide services to any other customer.

8.3 Data Privacy. Submitted Data may contain Personal Data which may be subject to laws restricting collection, use, processing and free movement of Personal Data. To the extent Ivalua processes any Personal Data on behalf of Customer as part of the Submitted Data, Ivalua will process such Personal Data according to the Data Processing Addendum attached as Schedule 5.

8.4 Data Security Notification. Ivalua will notify Customer in writing without undue delay upon becoming aware of any confirmed access to Submitted Data not authorized by this Agreement or elsewhere in writing by Customer. Ivalua will subsequently provide Customer with a report which shall identify, to the extent feasible: (i) the nature of the unauthorized access, (ii) the Submitted Data accessed, (iii) who affected the unauthorized access, (iv) what Ivalua has done or shall do to mitigate any deleterious effect of the unauthorized access, and (v) what corrective action Ivalua has taken or shall take to prevent future similar unauthorized access. Ivalua shall provide such other information as reasonably requested by Customer.

**SCHEDULE 1
MAINTENANCE AND SUPPORT TERMS**

The Ivalua Maintenance & Support Services Terms (“**Maintenance & Support Terms**”) are governed by the Subscription Services Agreement between Ivalua and Customer (the “**Agreement**”). Capitalized terms used but not defined herein have the meanings set forth in the Agreement.

1. IVALUA RESPONSIBILITIES

- 1.1 Severity Levels. Ivalua classifies each material nonconformity of the Cloud Service to the Documentation which was reported by Customer Contacts (“**Defect**”) into one of the following three (3) severity levels:

SEVERITY LEVEL	DEFINITION
Level 1 – Blocking Defect	Means a Defect that prevents operation of a major part of the functionalities of the Cloud Service by a majority of Authorized Users, and which cannot be bypassed by a Workaround.
Level 2 – Major Defect	Means a Defect that allows operation of the Cloud Service, but only for part of its major functionalities.
Level 3 – Minor Defect	Means a Defect that does not prevent Customer from having access to the Cloud Service’s major functionalities.

- 1.2 Online Portal & Defect Reporting. Defect reporting is managed solely online through the Ivalua Customer Support Extranet (“**CSE**”) made available to Customer Contacts 24x7 via login and password. Response times for Defects and other details based on the service level purchased by Customer are as set forth in Attachment 1.
- 1.3 Defect Correction. Ivalua will use commercially reasonable efforts to adapt, re-configure or re-program the affected Cloud Service, as applicable, to correct acknowledged Defects. Ivalua may correct a Defect by developing in a timely fashion procedures or routines for use by Authorized Users of the affected Cloud Service that, when employed in the regular operation of, or access to, the affected Cloud Service, will avoid or substantially diminish the practical adverse effects of the Defect (“**Workaround**”). Ivalua may also, in its sole reasonable discretion, deliver (i) a fix to a Blocking or Major Defect or to address a security performance, or critical product issue (“**Patch**”), or (ii) at a mutually agreed time, a release containing one or more corrections for a Defect, and which may or may not contain new functionality (“**Maintenance Release**”). Workarounds, Patches, Maintenance Releases and Upgrades (as defined below) shall be referred to collectively as “**Maintenance**”. For avoidance of doubt, Maintenance does not include implementation activities, configuration, product training, or customization which may be available at additional cost via Professional Services.
- 1.4 Monitoring. Ivalua will use reasonable commercial efforts to monitor the Cloud Service in relation to performance, availability, and security issues. Ivalua may, in its discretion, develop functionality improvements or enhancements to address Customer and market requirements and to improve the Cloud Service (“**Upgrade**”). Ivalua’s process for releasing and implementing Upgrades, as updated from time to time, can be viewed at: <https://info.ivalua.com/private/upgrade-process>, which document is incorporated into these Maintenance & Support Terms (“**Upgrade Process**”). Attached is the Upgrade Process current as of the Effective Date. Upgrades are deemed to constitute part of the Cloud Service and are subject to all the terms and conditions of the Agreement.
- 1.5 Customer Success Program. During the Subscription Term, Ivalua will make available to Customer Ivalua’s Customer Success Program as described at https://www.ivalua.com/private/cs_program.pdf. Attached is the Customer Success Program current as of the Effective Date.

2. CUSTOMER RESPONSIBILITIES

- 2.1 Contacts. Customer must designate qualified contacts (“**Customer Contacts**”) for the purpose of reporting Defects and obtaining Maintenance and ensure that their information is current in the CSE. Customer may replace Customer Contacts as reasonably necessary by providing written (email) notice to Ivalua’s business contact. Customer may not exceed the number of Customer Contacts permitted according to its purchased level of support.
- 2.2 Maintenance Requests. Customer may submit requests to Ivalua (“**Maintenance Requests**”) solely through its designated Customer Contacts and via the CSE. The Customer Contacts entering Maintenance Requests will take action to implement the resolutions to Defects. Customer agrees that Ivalua may communicate and follow instructions to make changes to Submitted Data and/or Customer’s instances, with its Customer Contacts.
- 2.3 Cooperation. Customer will provide Ivalua with such information and access to Customer resources as Ivalua may reasonably require in order to provide Technical Support and Maintenance. Ivalua is excused from non-performance hereunder to the extent attributable to Customer’s failure to provide such information.
- 2.4 Upgrades. Customer agrees to take necessary action to address Defects or security issues in the Cloud Service and will use reasonable commercial efforts to comply with the Upgrade Process. Customer understands that only the latest release of the Cloud Service contains the most current features, performance and security, including Patches. Ivalua is not responsible for Defects or security issues affecting the Cloud Service or failure to meet the SLA for the Cloud Service, in the event Customer is not in compliance with the Upgrade Process.
- 2.5 Certifications. Prior to conducting any configuration of the Cloud Service, Customer will ensure that the resources performing and implementing the configuration have successfully completed Ivalua Level 2 Certification, and Ivalua Level 3 Certification for configurations of integrations, and/or ensure that the third party mandated by the Customer is an Ivalua certified partner. In addition, all configurations performed by or on behalf of Customer must be uploaded onto the Extranet. Ivalua recommends that the core Customer project team completes an Ivalua Level 1 Certification in order to acquire a solid knowledge of Ivalua's standard capabilities.

3. LIMITATIONS

- 3.1 Exclusions. Ivalua shall have no obligation with respect to any Defect to the extent caused by (i) use of the Cloud Service other than according to the terms of the Agreement and these Support Terms (ii) modification of the Cloud Service by Customer or any third party, except as expressly permitted in writing by Ivalua; (iii) any combination or integration of the Cloud Service with hardware, software or technology not provided by Ivalua, including third-party software, unless such combination or integration is expressly permitted in writing by Ivalua; (iv) Defects that cannot be reproduced by Ivalua based on information provided by Customer; (v) Customer configurations performed or implemented in violation of Section 2.5 (Certifications); or (vi) Customer has not paid Subscription Fees.
- 3.2 Limitations. Notwithstanding the foregoing, Ivalua will take the necessary actions to plan and correct any Defect arising from configuration performed or implemented in violation of Section 2.5 (Certifications) but reserves the right to charge Customer for the work associated with correction of such Defects.

4. OPTIONAL SUPPORT SERVICES

- 4.1 Helpdesk Support. If Customer purchased Helpdesk Support, Ivalua will provide Customer’s end-users and/or Suppliers with technical support, which consists only of level 1 assistance through a dedicated geographic phone number and dedicated email address at the hours and languages detailed in Attachment 1. For clarity, the CSE is used for the management of Customer Maintenance Requests.

ATTACHMENT 2 TO IVALUA MAINTENANCE & SUPPORT TERMS

IVALUA UPGRADE PROGRAM

The following delineates Ivalua's Upgrade Process. Capitalized terms used but not defined herein have the meanings set forth in the Subscription Services Agreement.

Ivalua active customers that have paid all Fees in accordance with their Agreement are entitled to future supported versions of the Ivalua Cloud Service. Typically, the most recent 2 versions released are "destinations" for a prospective Upgrade. It is the responsibility of Customer and Ivalua to determine the best version for an Upgrade, as well as the appropriate schedule for and resources required to implement the Upgrade.

- ▶ Ivalua recommends at least one Upgrade every 12 to 18 months for the Customer to be able to get the best quality of from the Cloud Service.
- ▶ Ivalua requires Customer to Upgrade at least once every 2 years.

1. Details. The Fees paid by Customer for the Services include Ivalua resources required to support an Upgrade, subject to the following stipulations:

(a) Scope:

- (i) Customer is limited to one Upgrade per 12 months unless mutually agreed by both Customer and Ivalua.
- (ii) New features or modules introduced in the upgraded version may require extra labor costs.
- (iii) After the initial "go live," customizations or complex configurations/integrations made by Customer or an Ivalua implementation partner which are not covered by incremental subscription or Maintenance and Support fees will incur labor charges for each Upgrade.

(b) Planning:

- (i) Upgrades will require a pause in enhancement projects while the Upgrade is tested and deployed (an "Enhancement Pause"). Shortening the duration of the Enhancement Pause may incur fees for extra merge and re-testing activities.
- (ii) Ivalua resource availability to perform the Upgrade may be constrained by other priorities; adequate planning is expected.
- (iii) Client resources are expected to facilitate many of the Upgrade Process steps as set forth herein and beyond.
- (iv) A specific Upgrade project plan is required to document scheduling, resource requirements, Enhancement Pause timing, exceptional labor required, etc.

2. Ivalua Upgrade Process

(a) The estimated overall elapsed time for an Upgrade is dependent on complexity in 2 dimensions:

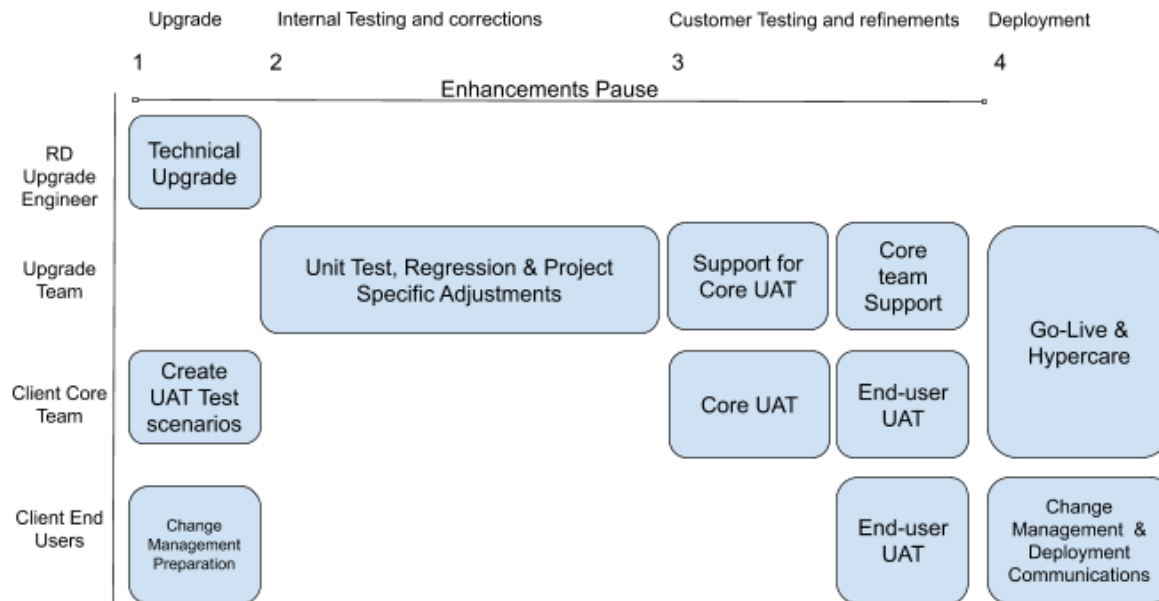

- (i) Complexity of client implementation (customizations, complex configurations, regional variations, non-standard integrations, number of modules, etc.); and
- (ii) Extent of the Upgrade (e.g. the number of versions being jumped, as certain versions may have refactoring or migration requirements)

**MASTER AGREEMENT NUMBER 18P 2308110000000000020 FOR
EPROCUREMENT SOLUTIONS AND SERVICES**

Between the **State of Maine** and
Ivalua

- (b) The 4 periods in the process described in the below graphic could be days, weeks or months. For a short Upgrade process, Ivalua recommends sticking to the standard features and upgrading your application regularly. The Ivalua project team will advise Customer on the specific estimated time based on these factors.
- (c) The following graphic illustrates the high-level components of the Upgrade Process:

3. Pre-requisites for Upgrades. Upgrades will be started when the following is well planned and documented:

- (a) Detailed Test Scripts are established by Customer and communicated to Ivalua’s team during the upgrade kick-off meeting.
- (b) A project plan stating the dates and resources for the project is signed off by all Parties.
- (c) The “destination” version must be released as Generally Available.
- (d) Any applicable labor charges are documented in an appropriate Statement of Work.

4. Enhancement Pause.

- (a) Requirement. Because of the complexity of most implementations, the Upgrade Process requires a “pause” in enhancement work during the entire process. This ensures that the upgrade is the ONLY change being done and tested adequately. In the process diagram, then, this means all 4 time periods are using the DEV-EVOL environment to perform the upgrade and no changes for other enhancements are allowed.
- (b) Shortening the Enhancement Pause. The time to implement an Upgrade may be minimized with a shorter Enhancement Pause (only impacting the last 2 time periods in the above graphic), but at the cost of a longer overall Upgrade cycle (5 periods instead of 4, with one additional period to merge the enhancements with the Upgrade) and including one-time labor charge to support the effort to merge the enhancements to the upgraded environment.
