**Request for Qualifications
Information for Architects and Engineers**

Southern Maine Community College (SMCC) wishes to procure architectural/engineering services for **Shoreline Erosion Mitigation** (BGS 3774) at Simonton Cove at the SMCC South Portland Campus.

Project Description

Recent storms have caused excessive erosion damage along the eastern shoreline of the campus, roughly from the historic Settler’s Cemetery to the masonry structures at Fort Preble. This threatens various infrastructure elements, including in- and above-ground utilities, safety fencing, paved walkways, a pump house, the above mentioned cemetery, and potentially the Computer Science & Engineering Center (CSEC) at 115 Seaside Lane. The loss of most of the soil and vegetation that helped stabilize the landscape above the beach has left a vulnerable, unsafe, changing property edge.

The proposed project is to assess overall building and property safety, to recommend options for mitigation of the recent storm damage to the shoreline, to identify and work with relevant entities, and to design measures and comprehensive strategies to protect SMCC buildings and property from future damage.

The scope of services for this project includes, but may not be limited to, schedule and cost estimating, preliminary design, design development, contract documents, and administration of bidding and construction. The AE Consultant may be required to coordinate this work or additional work with other consultants contracted by the Owner.

Project Budget

The overall project budget is approximately \$250,000.

Anticipated Schedule

RFQ responses due	4/12/2024
Short-listed firms notified.....	by 4/19/2024
A/E firm interviews.....	4/22/2024 to 4/26/2024
A/E firm selection	4/29/2024
Agreement approved.....	by 5/10/2024
Design completed.....	by 7/26/2024

State of Maine
Bureau of General Services
Division of Planning, Design & Construction

Bids received..... by 8/23/2024

Construction completed by 12/20/2024

Project duration.....5/10/2024 – 12/30/2024

Submission Requirements

Interested firms should submit *five paper copies* and *one electronic copy* of a Letter of Interest with a Statement of Qualifications which includes their response to criteria A through G in the Selection Criteria table below.

The *paper copies* of the Letter of Interest and Statement of Qualifications should be sent to Jay Manhardt, Interim Dean of Administration, Southern Maine Community College, 2 Fort Road, South Portland, Maine 04106 so as to be received not later than **1:00 PM on April 12, 2024.**

The *electronic copy* of the Letter of Interest and Statement of Qualifications should be sent as an attachment to an email addressed to BGS.Architect@Maine.gov and jmanhardt@smccme.edu so as to meet the deadline noted above. Alternate methods of providing electronic copies, such as website links to file sharing sites, or flash drives, or encrypted e-mails are unacceptable and may invalidate the entire submission.

Selection Criteria

A.	Qualifications to undertake this project	Professional experience in general. Quality of services. Relevant disciplines. Size of firm or firms. Understanding of this project. Responsiveness to project by virtue of proximity. Discuss each of the above especially as it relates to the work of this project.
B.	Cost control experience	Ability to manage project budgets, and design to budgets, to create accurate construction cost estimates, and to utilize project cost controls in design and construction.
C.	Project experience	List of projects that demonstrate capabilities, with services provided for each project. Provide project details, date of completion, and client contact information for each. Note the involvement of the particular personnel who are proposed for this project.
D.	Similar project	List of recently completed projects similar in type, size, and

	experience	other elements. Provide project details, date of completion, and client contact information for each. Note the involvement of the particular personnel who are proposed for this project.
E.	Project team	Organization of project team, with profiles of key personnel who would be involved in the project. Provide education, special training, experience, and responsibilities of personnel, especially as it relates to the work of this project. Experience working together as a unit.
F.	Workload projection	General illustration or statement of the ability of the project team to respond to this project schedule.
G.	Business references	List of business references other than those listed above, including contact information.

Firms responding shall employ personnel who have current licensure in the State of Maine who will serve as Architects, Engineers, and Landscape Architects of Record on this project. This project will utilize the standard BGS contract forms, available on the BGS website (<https://www.maine.gov/dafs/bgs/forms>).

Firms responding will be screened and interviewed on the basis of qualifications only. Project fees and specific design solutions for this project shall not be discussed at the interview. Specific program information will not be available before the screening of qualification packages. The selection committee will rank all firms and negotiate fees with the highest ranked firm.

Architect-Engineer Procurement Process

The standard procurement process of Architect and Engineer design services for public improvements is a Qualification Based Selection (QBS) process required by statute (Title 5, §1742 subsection 6), and described briefly here.

1. This Request for Qualifications (RFQ) solicitation is the step in the process after the Owner entity allocates funding, and receives approval from BGS to conduct the procurement.
2. Interested firms respond to the RFQ as described below, submitting the Letter of Interest and Statement of Qualifications to the Selection Committee.
3. The Selection Committee screens all submissions and invites the most qualified firms to interview for the project, typically three to five firms.

State of Maine
Bureau of General Services
Division of Planning, Design & Construction

4. The Selection Committee interviews the firms. Second interviews may be scheduled. References are checked.
5. The Selection Committee ranks all of the interviewed firms. The Committee negotiates an agreement with the highest ranked firm based on the scope of professional services identified in the RFQ and interview.
6. A BGS Architect/Engineer Agreement is drafted.
7. The agreement must be approved by BGS before work commences.
