Dear Jim,

I am not sure why I am writing this letter because it does seem to me that a decision has already been made despite the obvious opposition to the proposed CMP Corridor. However, given my background and expertise and not to mention the fact that I am a Farmington resident, I felt compelled to write regardless. I have attached a document to this message.

When you see my addresses below please understand that I have worked for USAID, Ford Foundation and most recently for IUCN as the director of the Forest Law Enforcement & Governance Program (FLEG). This was implemented in Armenia, Azerbaijan, Belarus, Georgia, Moldova, Russia, and Ukraine. I have worked in Maine for International Paper Company, had my own Consulting Forestry business and created a program at UMF for forest landowners.

I do hope that you will consider what I have to say regarding this cmp proposed corridor. It really is NOT a good idea for Maine. I would also like to ask for acknowledgement that you have received this letter. Richard Aishton
