Question or Comment

CMP's proposed corridor- I sincerely hope the MDEP does not give it's support to this project. I'm sure you have heard all of the logical arguments against the project so I will only offer a couple opinions.

Firstly, I do not feel CMP has earned enough trust through recent and long-ago behaviors to be given the go-ahead for this project that will forever have an effect on some of our state's wild land and wildlife. The recent possible over pricing situation, the lawsuits, and the forced use of smart meters are a few such incidents.

Secondly, CMP has a long history of using the state of Maine's land for it's financial benefit. The former village of Flagstaff Maine was flooded by the founder of CMP and the state of Maine several decades ago. My father told me of his experiences of this event. I hope there is knowledge of Flagstaff among members of the DEP and I also hope it is a consideration when a decision is made as to whether or not to bless this project.

Thank you
