Mr. Beyer

I am writing to oppose the proposed CMP corridor through Western Maine. This area of Maine is one of the last wilderness areas left in the eastern United States. The corridor will be bad for wildlife habitat, native fish populations, Sportsman, hikers, and the economy of Maine.

I favor protecting our environment, and addressing climate change, however the CMP corridor is not the best way to deal with these issues. If built the lasting effects will be the same as a species lost to extinction, FOREVER. Please consider the impact the corridor will have now and for future generations.

Thank You

Gary Burke

East Wilton, Maine
