Dear Mr. Beyer:

I am writing to share my opposition to the proposed CMP power-line corridor.

Looking at the details of this project I do not see a net benefit for Mainers. Instead I see the threat of an enormous, permanent, scar in our landscape. I see the prospect of degrading the quality of our pristine and beloved wild areas. Nature has been under threat from all directions. I believe we need to draw a line here, and prevent this potentially ill-conceived project from going forward.

I urge you to deny the permit for the CMP power-line project.

Sincerely,

Stephen Shaw
