NECEC.DEP@Maine.Gov

As a citizen of Maine I hereby request that you do not allow the corridor to be put in our state and we understand that the Massachusetts authorities will have to look elsewhere for renewable energy as a result.

I cannot condone the destruction of Maine wilderness and the interruption of natural life that this corridor represents and I am also sure that there will be human health costs given to anyone living nearby - due to electronic energy and forces that effect DNA and human health. If you go ahead with this than we expect many legal suits to be filed against your company for damages.

Sincerely,

Angela Berry
