Hello,

I am an avid outdoorsman and love the beauty of western Maine. I believe the 145 mile corridor to get electricity to Mass. will ruin the beauty of our land for nothing. Millions of dollars in bribes from CMP can not make up for it. I am shocked Gov. Mills backs this!!

CO2 is a life giving minute particle in our atmosphere, which has been much higher in the past. We need CO2 to live!! It is a good thing!! Building this habitat destroying monstrosity will have absolutely NO effect on our changing climate, which has changed since the beginning of time! Humans have little if any effect!!

PLEASE DO NOT build this corridor!! Listen to us Mainers--65% oppose it!!

Thanks, Barbara Logue and Family, Southwest harbor, MAINE
