Dear Regulators

I am writing to voice my families opposition to the proposed transmission line

The line does not benefit Maine and Maine citizens

It benefits only CMP, Massachusetts and Connecticut

CMP promised lower rates during deregulation - yet my rates have increased and reliability is still an issue

The proposed "incentives " amounts to a few hundred dollars / per citizen- which is nothing

Maine is a special place. Our woods are unique and need to remain

The tourists dollars provide jobs - and they travel spend \$ to be in the woods They see transmission lines in their states and value Maine's uniqueness

Please do not screw up our state by selling out to big business

Thank you for your consideration

Jim Granger
