Hello,

My name is Pamela Hourihan I have lived in southern Maine my entire life. I started going to Moxie and The Forks when I was 10, now 52 my family bought a camp 28 years ago and we go there for peace and quiet. We snowmobile, ride ATV's, fish and hunt, ride bikes and walk and hike. All these things will now be forever changed.

I beg you stop this travesty, 65% of this state is against this corridor. Maine gets nothing, remember Flagstaff and don't repeat the same mistake. I don't know how much ground a 90 foot tower needs, but the existing lines are just fine for our state we don't need any more electrical lines running from Canada to Massachusetts and get nothing.

I do not see any benefit for Maine in this just a lot of losses. I would gladly pay a higher tax to provide money for poor folks to have help with bills and heat pumps. Massachusetts can find power from other sources let them build a solar farm IN Massachusetts or wind or whatever just not in my state.

This corridor will ruin all that it touches.

Thank you for your time
Please do what our Governor is not doing and that is listening to the people.
Just Say No
