

Jan 26, 2020

Dear Jessica,

My husband and I are residents of Beech-Hill Pond, and from our home, we look out on five wind mills on Pisgah Mt, and at nite, we look out at the blinking red lights in the night sky.

And now, we understand that they want to put five more wind mills on Pisgah Mountain, which we are very much against. These wind mills are taking away our scenic view of the Pond, and devaluing our property.

We have Eagles, and ^{lots} many other beautiful birds on the pond, and the wind mills are killing them.

Please take this under consideration.

Sincerely,

Blake and Judy Brown
