**Award period: January 01, 2019 to September 30, 2020**

Law Enforcement Allocation Category			
County	Agency	Contact	Purpose
Androscoggin	Androscoggin County Sheriff's Office	<p>Chief Deputy William Gagne                  2 Turner Street, Unit 9                  Auburn, ME 04210                  Website:  <a href="https://www.androscogginco.untymaine.gov/sheriff.html">https://www.androscogginco.untymaine.gov/sheriff.html</a></p>	<p>The Androscoggin County Sheriff's Office is seeking the following: Two (2) each Glock model 21 .45 caliber handguns to be used as spare units for our armed staff. Currently, the staff carries a choice between the Glock models 21, 30, and 41. Each deputy chooses one of these models depending on the person's hand size and comfort. Handguns are like footwear, it is not a one size fits all. It is important to have spare handguns in the event one breaks or if it needs to be sent out for repair. The Glock model 21 is the most popular and we currently have no spares of this model. The Androscoggin County Sheriff's Office is seeking two (2) Windham Weaponry rifles with optics. These rifles are being purchased for two deputies who do not have a rifle issued to them. These are the same make and model rifles already being used by the other deputies in our patrol division. Each deputy/vehicle is issued a rifle and will better equip our staff in the event of an armed confrontation. Implementation and training (qualifications) of these firearms would occur immediately after purchase. The last item is a one-year subscription to Leads Online. Leads Online is a program that once purchased will be accessible to all of your patrol deputies and detectives. We have used the program using a free 30-day subscription and based upon our limited use and with speaking to other agencies it has been a proven tool to help solve crimes such as burglaries and thefts.</p> <p>The Mechanics Falls Police Department will use the funds to purchase two (2) PepperBall® units with accessories and training for the officers.</p> <p>The Sabattus Police Department's objective with the 2018 Byrne/Jag grant funding is to purchase the following items: Nine (9) Streamlight TLR-2G HL 800 Weapon Laser Lights and Nine (9)Blackhawk T-Series Light Bearing Duty Holsters Our firearms instructor will install as well as train each officer on the care and use of the light/laser addition to our issued firearms</p> <p>The Lisbon Police Department would like to use our Byrne/Jag award to purchase a new mobile radio, and amplifier, for one of our fully marked police units, and two (2) new portable radios for our patrol officers. The "patrol" function is the primary responsibility of any municipal law enforcement agency charged with public safety. Having effective two-way communication with our mobile units/officers on patrol is paramount to our officers' safety, and necessary for the appropriate distribution of critical information from our dispatch center. Unfortunately, the mobile radios in our marked police cruisers are at/near the end of their life cycle, as are the portable radios worn by our officers.</p>

# FY 2018 Edward Byrne Memorial Justice Assistance Grant (JAG) Program Summary

Award period: January 01, 2019 to September 30, 2020

Cumberland	Windham Police Department	<p>Chief Kevin L. Schofield          375 Gray Road          Windham, Maine 04062          Website:  <a href="http://www.windhammaine.us/170/Police">http://www.windhammaine.us/170/Police</a></p>	<p>The Bridgton Police Department is requesting funds for two body-worn cameras (BWC) to add to our four current cameras. This will allow us to better utilize the cameras on all shifts.</p> <p>The Brunswick Police Department proposes to purchase a FUR handheld thermal imaging camera to assist with finding suspects and missing persons who enter the woods. The Brunswick Police Department would like to purchase a video recording system for one of our interview rooms which is compatible with the WatchGuard system that records our cruiser video. Our current recording system is a modified surveillance video system that frequently fails and has difficulty with long interviews. Finally, the Brunswick police department would like to use the balance of its Byrne allocation to purchase additional traffic cones which are used for police training and to control traffic at roadblocks and special events.</p> <p>The Cape Elizabeth Police Department will be using the funds awarded from the Edward J. Byrne Memorial Assistance Grant to fund the purchase of a Patrol Block Ballistic Shield. The balance of the grant will be used to pay for an instructor's time to train officers who are on duty in the use of the shield.</p> <p>The Cumberland County Sheriff's Office will utilize funds awarded from the Edward J. Byrne Memorial Assistance grant to purchase a powered telescoping pole for a command post being renovated from a LESO acquired former mobile biological testing lab. The completion of this project will provide an updated mobile command and control for use by our regional SWAT group, Dive team, Accident Reconstruction team, and for use at area crowd control events.</p> <p>The Cumberland Police Department will utilize funds awarded from the Edward J. Byrne Memorial Justice Assistance Grant to purchase 6 new Sony PX370 Digital Voice Recorders. These recorders will allow our officers to accurately capture information from victims, suspects, and witnesses during criminal investigations.</p> <p>The Falmouth Police Department will utilize the 2018 Byrne JJAG Grant to purchase a StatTrak Data Collector. The number one complaint from Falmouth citizens is traffic related to speed, volume, and the class of vehicles. This covert device from All Traffic Solutions will be installed on target roads and provide real-time data of traffic movement. This data will assist the department in speed enforcement and road management to reduce crashes and complaints.</p> <p>The Freeport Police Department will use the funds awarded from the Edward Byrne Memorial Justice Assistance Grant for equipment to enhance patrol functions in Freeport. Taser Cartridges and Batteries for the Departments</p>
------------	---------------------------	---	---

# FY 2018 Edward Byrne Memorial Justice Assistance Grant (JAG) Program Summary

Award period: January 01, 2019 to September 30, 2020

			<p>X26/X26P Taser, a Nikon Prostaff 5 20-60x82mm Scope Outfit with Tripod, and an iPad with a case.</p> <p>The Gorham Police Department will be using funds from the Edward Byrne Memorial Assistance Grant to provide funding for equipment. The Gorham Police Department has purchased two 2020 Ford Interceptor police utility vehicles using the Town of Gorham funds. The Gorham Police Department is looking to use the funds from the grant to purchase cruiser emergency lighting to outfit the vehicles.</p> <p>The Scarborough Police Department will be using the funds awarded from the FY 2018 Edward Byrne Memorial Justice Assistance Local Pass-Through Grant for the purchase of a handheld FLIR thermal imaging unit. We would also propose to purchase a Chromebook Laptop for our Special Enforcement Unit. Additionally, we will purchase a 3 camera Blink XT2 / Outdoor / Indoor Smart Security package for use in homes or businesses that are at high risk for criminal activity.</p> <p>The Windham Police Department will utilize funds awarded from the Edward J. Byrne Memorial Assistance grant to purchase five (5) Zoll Automatic External Defibrillators.</p> <p>The Yarmouth Police Department will use the funds awarded to us under the Edward Byrne Memorial Justice Assistance Grant to purchase equipment to use for active threat training. This equipment will be used by officers to educate and train department members, as well as providing education and training to town and school employees.</p> <p style="text-align: right;">CC-01-18    \$ 36,271.00</p>

**Award period: January 01, 2019 to September 30, 2020**

Law Enforcement Allocation Category			
County	Agency	Contact	Purpose
			<p>combative subjects at the Oxford County Jail. The Dynamic Entry Halligen Tool will be used when a no-knock warrant has been issued.</p> <p>The Paris Police Department will purchase a Panasonic CF-54 Toughbook Laptop to equip one of its vehicles without a mobile data computer.</p> <p>The Rumford Police Department will purchase 2 each AXON Tasers to minimize the level of force when encountering an uncooperative suspect. The department will also purchase a Garmin Astro Dog Tracking bundle to be used by the department's certified K9 patrol.</p> <p align="right">OXF-01-18 \$22,437.00</p>
Penobscot	Veazie Police Department	<p>Sergent Eugene Fizell            1084 Main Street            Veazie, ME 04401            Website:  <a href="https://veaziepd.net/">https://veaziepd.net/</a></p>	<p>The Region 5 Training Council will be working with Brewer Police and Bangor Police to enhance, their established and regional, interactive, and scenario-based training on the use-of-force, both non-deadly and deadly force training. Brewer Police have an established theater-style, computer-generated interactive training system where officers use laser 'firing' weapons. However, there is only 1 laser rifle. This will add a second rifle so that officers may training in pairs, which is often the methodology of today's officers. Bangor Police already uses many live scenarios based training in the use-of-force using a couple of different types of training weapons. The purchase of these 15 airsoft pistols will allow less expensive training in that the ammunition is less costly and there is minimal damage caused to the facilities which allow us to train within their walls. Both departments have always include out-side agency officers to their training and have agreed to even offer more training, as individual departments request them.</p> <p>The Hampden Police Department currently has approximately 11 portable radios, most of which are older Kenwood TK-280 models. We have 11 full-time police officers and 2 part-time police officers. Several of the radios and supporting equipment are aging and falling. As a result, our supply of dependable, well-functioning radios is diminishing. We will purchase two Kenwood NX-3200K2 radios with speaker microphones immediately upon receipt of the funding.</p> <p>The Holden Police Department, while a small agency, needs additional high-definition cameras for the Police Department building. Our officers patrol alone in a rural environment that encompasses a large territory. This leaves the Police Station unattended for long periods. The Holden Police Department is located on one of the busiest roads in the State of Maine (Route 1A), where "road rage incidents" are a frequent type of call that our officers respond to.</p>

**FY 2018 Edward Byrne Memorial Justice Assistance Grant (JAG) Program Summary**  
Award period: January 01, 2019 to September 30, 2020

Law Enforcement Allocation Category			
County	Agency	Contact	Purpose
			<p>By installing an additional high-definition camera at the Police Department building, our officers will be able to direct the victim of this type of incident to a place equipped with constant surveillance that police have direct access to. The additional camera, in conjunction with the current camera system at the Police Department building, will allow us to identify and hold people accountable for their actions.</p> <p>The Millinocket Police Department is planning on equipping the three police cruisers with an "active shooter go bag". This bag will consist of a trauma kit (First Tactical Crosshatch Sling Pack, tourniquet, wound stop, pressure bandages, chest seal, quickclot gauze, trauma dressing, gloves, CPR mask), two additional magazines for the rifle and pistol, and maps of the schools.</p> <p>The Orono Police Department will purchase equipment and materials to support the upcoming Community Resource Officer, who will be assigned to coordinate the current dept. programs as well as begin coordinating with Code Enforcement/Economic Development, increase educational opportunities, and work to build closer relationships with the diverse Orono population. Materials will include a table banner (with Dept. logo ), pens, key chain lights, note pads, cell phone wallets, to be distributed at Town/Police events, public recognition opportunities, and for the recruitment and retention of minority populations.</p> <p align="right">PEN-01-18 \$13,370.00</p>
Passamaquoddy Indian Township	Passamaquoddy Indian Township Police Department	Chief Matthew Dana II Passamaquoddy Indian Township Police Department 443 US Rt 1 Indian Township, ME 04668 Website: <a href="https://www.passamaquoddy.com/">https://www.passamaquoddy.com/</a>	<p>The Passamaquoddy Indian Township Police Department will purchase equipment to improve the security and safety of the Indian Township Police and the Emergency Communications network server. The server is outdated. The record management system will not function properly with current server hardware and storage. Upgrading the network server hardware by installing the QNAP NAS device and three 3TB hard drives increase storage capacity maximizes security and safety of important police, fire and EMS documents, and records. Police and Dispatch personnel will benefit and use the network to provide daily police and dispatch functions here at Indian Township.</p> <p align="right">ITP-01-18 \$591.00</p>
Piscataquis	Dover-Foxcroft Police Department	Chief Ryan Reardon 182 East Main St. Dover-Foxcroft, ME 04426 Website:	<p>The Dover-Foxcroft Police Department will purchase new office equipment that will be ergonomically suitable for an office environment, The new equipment will replace equipment that is in disrepair or not ergonomically adjustable.</p>

Waldo	Waldo County Sheriff's Office	Chief Deputy Jason Trundy 6 Public Safety Way Belfast, ME 04915 Website: <a href="http://www.waldocountyme.gov/wso/index.html">http://www.waldocountyme.gov/wso/index.html</a>	<p>The Waldo County Sheriff's Office has been a firm believer in the in-car recording systems. Since the original VCR technology-based systems, the Sheriff's Office has budgeted to place a recording unit per vehicle. As technology has improved, the Sheriff's Office has upgraded to the DVD based systems and presently is now using the Martel in-car video recording system. This technology records the video and audio of the deputy onto an SD memory card. The videos recorded during traffic stops and investigations have proved invaluable in the protection of the deputy and those who they come in contact with and interact with.</p> <p>When cases are prosecuted, the videos have made a great difference in the ability of the court system to prosecute and charge properly the individuals involved. Furthermore, when claims have arisen, the video always has helped stop false claims. Therefore, the Sheriff decided to move forward and equip each Deputy and Detective with a body-worn video recording device manufactured by Wolfcom. These devices have allowed the same protections to follow the officer into the locations and sites where the dashboard in-car system could not cover.</p> <p>The Sheriff's Office implemented the body-worn camera system and has found a significant benefit in liability reduction and criminal prosecution. The current cameras in use have limited battery life and this has frustrated officer's ability to have it available throughout the entire shift. The ten cameras being sought in this grant will be assigned to replace the older cameras in our patrol division.</p> <p>The Town of Lincolnville, Maine has acquired a Traffic Logix SafePace 650 Radar Speed Sign. Rather than permanently mounting the unit in one location the Town is proposing to construct a trailer so that the unit may be used in multiple locations thus enhancing its overall function and effectiveness.</p> <p>The Belfast Police Department will utilize the allotted funds for three in-car computers for the Department's primary patrol vehicles and five vehicle computer mounts for the primary and spare patrol vehicles. The intention is to increase response to the community needs by Officers having access to critical information in the field when needed and to allow the Officers more patrol time in the community giving greater access, visibility, and response times to the citizens of the City of Belfast.</p> <p align="right">WAL-01-18 \$8,603.00</p>
