Ms. Emma Burke,  
Candidate Registrar  
Maine Commission on Governmental Ethics & Election Practices  
135 State House Station  
Augusta, ME 04333

**RE: Complaint Against Stan Gerzofsky, Candidate for Senator, District 24**

Dear Ms. Burke,

We, the undersigned, are concerned voters of Senate District 24. Please consider this letter describing gross violations of Maine campaign finance laws as a formal complaint we request be immediately referred to the Commissioners so that they can authorize a full investigation into the campaign finances of Stan Gerzofsky.

Stan Gerzofsky registered as a candidate for Senate District 24 on January 9, 2020. Mr. Gerzofsky is a traditional, privately financed candidate. His campaign's first finance report, the 11-Day Pre-Primary Report, was due Monday, July 6, 2020. The campaign's Treasurer, Sara Randall, filed this report electronically on Wednesday, July 8, 2020 at 8:30 PM. We contend that this report does not substantially conform to the disclosure requirements.

We are very concerned that the campaign's expenditures are grossly underreported in the 11-Day Pre-Primary report.

There are five payments disclosed to The Town Cryer in March and April totaling \$2,315.63. The Cryer is a local, monthly publication in Brunswick. Using the Cryer's ad rates (attached) we have determined that the campaign has taken out at least \$4,995.02 worth of political advertisements that would have all had to be placed by June 15. **This means the campaign has failed to report at least \$2,679.39 worth of expenditures or debt—this would more than double the total expenditures reported by the campaign.**

Below is a breakdown of the published ads Mr. Gerzofsky's campaign has placed:

- **March: \$742.50**
  - \$675 full color, half page ad
  - Free 375 words of written content
  - \$67.50 full color 3 column inches (photo)
  
- **April: \$1130.63**
  - \$1040.63 full color, full page ad
  - \$90.00 full color 4 column inches (photo)
  - Additional 13 column inches of text
  
- **May: \$1,040.63**
  - \$1,040.63 full color, full page ad
  - Additional 14.5 column inches of text
  
- **June: \$1,040.63**
  - \$1040.63 full color, full page ad
  - Free 750 words of written content
  
- **July: \$1,040.63**
  - \$1040.63 full color, full page ad
  - Free 750 Words of written content

Attached are copies of the ads which are available on the Cryer's online archives as well as photographs from the April, May, June, and July issues.

We urge the Commission to authorize a full investigation into these discrepancies pursuant to its authority under 21-A MRSA § 1003. Either the campaign has failed to report expenditures or the Cryer has made an overlimit in-kind contribution to the campaign. An investigation will bring this to light and also determine if any other violations have occurred.

Additionally, we request the Commission exercise its authority under 21-A MRSA § 1004-C and find any penalty warrants an enhancement due to the aggravating circumstances. This statute states "when assessing a penalty or monetary sanction, the commission...may triple the authorized penalty or monetary sanction for a violation occurring less than 14 days prior to an election day." Today, we are just four days away from election day, and Mr. Gerzofsky is depriving the public of a complete campaign finance report which is typically due 11 days prior to the election. Any penalty assessed by the Commission should therefore be tripled under § 1004-C.

Campaign finance disclosure exists for a reason. We, as voters, deserve full, complete, and accurate disclosure from all individuals running for office. After reviewing the initial filings of Mr. Gerzofsky, it is clear that his campaign is continuing to violate state ethics rules and state statutes.

We are now less than 4 days from election day—absentee ballots are out and early voting is almost done. Mr. Gerzofsky has flagrantly ignored multiple Maine statutes and Maine Ethics Commission rules. This matter must be referred to the Maine Ethics Commission for immediate investigation and enforcement. Residents of Senate District 24--and all Maine voters--deserve transparency around elections and elected officials.

We are now four days away from Election Day. Mr. Gerzofsky has flagrantly ignored multiple Maine statutes and Maine Ethics Commission rules by first ignoring the campaign finance deadline and then filing a substantially incomplete report. It would set an unfortunate and dangerous precedent if these violations go unaddressed until after the Election. We respectfully ask that you use all investigative and enforcement tools at your disposal to resolve this matter swiftly.

Thank you for your attention to this matter.

Sincerely,

**Percival Stoddard**

### Stan Gerzofsky Is a Dedicated Leader

By Senator Bill Diamond

I am proud to say that I worked with former State Senator Stan Gerzofsky over a span of more than 40 years beginning when I was Maine Secretary of State and continuing through my years as a State Senator. One of the most outstanding characteristics of Stan was his total dedication to the communities and people he represented in the legislature. He was known as a legislator who would never quit when working for his constituents. As a result of his tireless work ethic, he enjoyed a reputation among his colleagues as one who was unusually loyal to his people back home.

During the uncertain days of the Naval Base closure, Stan used his well-earned reputation and his resulting influence to help transition the Base into a proud center of economic growth and prosperity. As chairman of the legislature's state budget writing committee at the time, I worked closely with Stan and witnessed his devotion and unending efforts to turn a potential economic disaster into a positive economic outcome.

Stan served as House Chair when I was Senate Chair of the Criminal Justice and Public Safety Committee when we helped write the new sex offender laws for the state of Maine. Stan had served on the committee for years and his expertise and experience played a critical role as we crafted a series of important laws designed to protect Maine citizens from convicted offenders.

Above and beyond all of the accomplishments by Senator Gerzofsky during his 16 years in the legislature it was his commitment to always put his towns and people he represented as his first and highest priority.

It was a privilege and honor to serve with such an outstanding and dedicated Senator.

## Gerzofsky Is A Champion for Cumberland County

To the Editor,

*The Hon. Stan Gerzofsky is a champion for Brunswick, and he's proved it. He was instrumental in Brunswick Landing and Brunswick Executive Airport and was unflinching in advocating for these improvements and more. He stood up for the value of Marine fisheries in the area and never took a backseat in advocating for them.*

*As co-chair with me on the Criminal Justice and Public Safety Committee, I got to know what a caring, thoughtful gentleman he is. He devoted many hours before and after meetings to find the right path to good solid legislation and consequently, good bills were offered, voted on and passed.*

## **Gerzofsky Deserves Your Vote**

*Dear Editor,*

*This is a letter of support for Senator Stan Gerzovsky. We have known the Senator for the past 2 years and are completely proud to know him and support him in the coming election.*

*We met the Senator when we had to Rehome our German Shepherd named Ruger. Our first meeting was amazing in that the Senator knew exactly what to do in meeting this challenging canine! The Senator even took the time to travel to our town and observe Ruger at his daycare facility!*

*After many visits and trials, he took on the responsibility to continue to raise our Ruger. I believe that he is a genius and a miracle worker in how he has made this dog behave and show his intelligence!*

*We are so very grateful to know him and how much he cares about canines and all animals. We researched his name on Google and were delighted to read all of the bills to support animals in the state of Maine that Senator Gerzovsky had proposed and were passed.*

*There are not enough words to describe how privileged we are to know this wonderful senator. He is one of the most remarkable politicians we have ever met. Senator Stan Gerzovsky deserves your vote!*

### Stan Gerzofsky is Missed in the Maine Senate

To the Editor,

*I have had the honor of serving with Senator Gerzofsky in both the House and Senate where he has been a mentor and friend for many years. Stan knows how to pass legislation that benefits the people of his district and our state. He carries the institutional knowledge that we need in a legislature that few choose as a long term mission. We are lucky to have the knowledge and commitment that Stan brings to the job. He helps all of us be more effective legislators by sharing his experience and time whenever anyone asks.*

*Please vote to return Stan Gerzofsky to the Maine Senate where he has been sorely missed.*

*The Hon. Stan Gerzofsky is a champion for Brunswick, and he's proved it. I served with him and I know how steadfast he was as an ardent supporter of the redevelopment of the Brunswick Naval Air Station. He was instrumental in Brunswick Landing and Brunswick Executive Airport and was unflinching in advocating for these improvements and more.*

*He stood up for the value of Marine fisheries in the area and never took a backseat in advocating for them.*

*As co-chair with me on the Criminal Justice and Public Safety Committee, I got to know what a caring, thoughtful gentleman he is. He devoted many hours before and after meetings to find the right path to good solid legislation and consequently, good bills were offered, voted on and passed.*

*I strongly urge you to support Stan for the Maine State Senate.*

### Maine Statehood Forever Stamp Issued March 15

AUGUSTA, ME - The U.S. Postal Service celebrates the 200th anniversary of Maine statehood with a new Forever stamp. Maine became the 23rd state on March 15, 1820. The picturesque rocky coast-

line of Maine has long inspired the imagination of writers and artists. American painter Edward Hopper (1882-1967) was among the many prominent artists who sought the tranquility of the state's coastal towns during the summer. His painting "Sea at Ogunquit" (1914) captures the rugged beauty so characteristic of Maine and is being represented on the stamp, which art director Derry Noyes designed.

The stamp dedication event will be part of the Maine Statehood Day Ceremony activities. Michael J. Elston, Secretary of the Board of Governors, U.S. Postal Service, Governor Janet Mills and Secretary of State Matthew Dunlap will be taking part in the dedication on Sunday, March 15 at 1 p.m. at the Augusta Armory, 179 Western Avenue, Augusta. Dedication ceremony attendees are encouraged to RSVP at [usps.com/mainestatehood](https://usps.com/mainestatehood). Maine celebrates its bicentennial in 2020, but its history of human habitation dates back some 12,000 years to the earliest Native Americans, who are now part of the Wabanaki Confederacy. During the Colonial period, Maine territory was disputed between Massachusetts Bay Colony and French Acadia, who sought allies among and warred against Native Americans. Following the Revolutionary War and ratification of the U.S. Constitution, the District of Maine remained part of the Commonwealth of Massachusetts. Maine became an independent state on March 15, 1820. Portland, the state's largest city then and now, served as the capital until 1827 when the seat of government moved to Augusta, a more geographically central location.

**Senator Gerzofsky - A Champion of Conservation**

BRUNSWICK, ME - Stan Gerzofsky served for 16 years in the Maine House of Representatives and State Senate before leaving his seat in 2016. "With the retirement of my friend Senator Brownie Carson I believe there is more work to do and I want to serve my community again," said Gerzofsky.

Gerzofsky has been a champion of conservation. In fact Maine Conservation Voters (MCV) gave him a 100% rating for his support of environmental issues during the 126th Legislature.

The MCV is dedicated to supporting policies and laws to protect our natural resources and the Maine brand - air, land, water, and wildlife. For over 30 years, MCV has released an annual legislative scorecard to evaluate lawmakers' commitment to protecting the environment.

"From downtown Brunswick and the rolling hills of Pownal and North Yarmouth to the natural resource mecca of Freeport and the working waterfront of Harpswell I will fight to protect our natural resources," said Gerzofsky.

During his eight years in the Maine House and eight years in the Senate Gerzofsky worked to increase access to solar energy and co-sponsored a bill to create the first commission on the East Coast to study the effects of ocean acidification on Maine's ecosystem. In
