

DUNDEE POND

Standish & Windham Twps., Cumberland Co.
U.S.G.S. North Windham, Me. (7.5')

Fishes

Landlocked salmon	Minnows
Brown trout	Common shiner
Brook trout	Creek chub
Smallmouth bass	Fallfish(chub)
Largemouth bass	White Sucker
White perch	Hornpout(bullhead)
Yellow perch	Redbreast sunfish
Chain Pickerel	Pumpkinseed sunfish
Minnows	Black crappie
Golden shiner	American eel

Physical Characteristics

Area - 197 acres	Temperatures
	Surface - 76°F
Maximum depth - 41 feet	40 feet - 59°F

Principal fisheries: Smallmouth bass, largemouth bass, white perch, yellow Perch, chain pickerel

Dundee Pond is an artificial impoundment on the Presumpscot River. Dundee, like many river flowages, has numerous coves, islands, points, bars, and drop-offs leading to deeper pools. These features provide ample habitat for a variety of warmwater fish species. In addition, much of the shoreline is undeveloped and the pond provides an aesthetically pleasing atmosphere for angling and other outdoor activities.

Coldwater fisheries are limited by the small area of cool, oxygenated water that occurs during the summer months when the pond thermally stratifies. In fact, in some years no suitable water is available for coldwater fish. The Maine Department of Inland Fisheries and Wildlife stocks sections of the Presumpscot River above the impoundment with

brown trout, brook trout, and landlocked salmon, and a few of these fish drop down into Dundee and are caught by anglers.

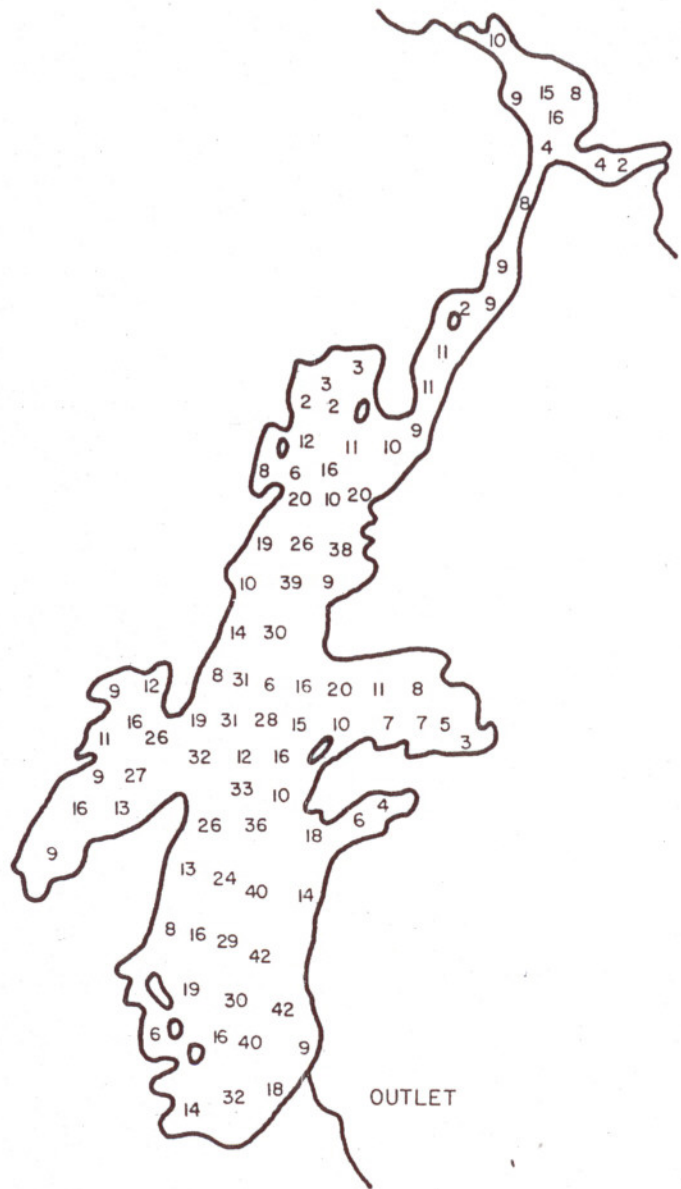

The impoundment provides excellent fishing for smallmouth bass, largemouth bass, and chain pickerel. Black crappie were illegally introduced into the impoundment and a few nice sized individuals are taken, but their numbers appear to be limited.

Periodic draw downs for dam maintenance impacts the fisheries in some years. MDIFW is working with the dam owner to reduce the number of draw downs and adjust their timing to reduce impacts.

In the late 1990's, Central Maine Power constructed a carry in access site with ample parking. The access is located off the North Gorham Road/Windham Center Road in Windham.
