

12/15/10 Midcoast Bypass Task Force Meeting

Resolution per Robert Faunce

(Amended per the Task Force)

"After many years of investigation and countless studies completed by MDOT at the request of or for the benefit of the Task Force, the ~~members~~ ^{Study} concluded that a non-build alternative would not satisfy the purpose and needs of the study. Two years ago the Task Force provided guidance to MDOT and since that time sufficient new information has not been made available that would warrant reopening the planning effort MDOT should incorporate the Task Force's previous guidance and complete the ^{planning} ~~planning~~ process ~~as quickly as possible~~ so the affected communities can move forward with the vision and building of their future "

Task Force Vote:

9 For

5 Against

1 Abstention
