

***Are you as
tall as...***

Cut out the pieces, then hang them up around a room or on a wall at the correct height.

Average height of
a house cat: 9.5
inches

Cats can jump up
to 6 times their
height.

Cats don't taste
sweetness.

Cats are supposed
to have 18 toes.

Average height of
a dog: 2 feet, 1
inch

A dog's nose print
is unique, just like
a fingerprint.

A dog's nose has
295 million more
receptors than
humans.

All puppies are
born deaf.

Average height of a
dolphin: 2 feet, 5
inches

There are 42 species
of dolphins.

A dolphin pregnancy
lasts between 9 and
16 months.

Average height of
a turkey: 3 feet

Turkeys can see
better than
humans.

Only male
turkeys gobble.

Average
height of a
sheep: 3 feet,
10 inches

Sheep are
herbivores.
(No meat!)

Sheep wool
will grow
forever.

Average height
of an emu: 5
feet

They have two
sets of eyelids,
one for blinking
and the other
for keeping the
dust out!

Emu live 10-20
years.

Average height of
a moose: 7 feet

Females often
give birth to
twins and
triplets.

Moose can travel
up to 35 mph!
