NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Maine Employers' Mutual Insurance Company (Company) have been prepared on the basis of accounting practices prescribed or permitted by the Maine Bureau of Insurance (MBOI).

The State of Maine requires insurance companies domiciled in the State of Maine to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual subject to any deviations prescribed or permitted by the Maine Bureau of Insurance. The MBOI recognizes only statutory accounting practices prescribed or permitted by the State of Maine for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under Maine Insurance Law. The NAIC Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Maine. During the last examination period, the MBOI determined that according to Maine law 24-A MRS §1106, the admitted value of MEMIC's investment in MEMIC Indemnity is limited to 10% of total admitted assets. On July 27, 2022, the MBOI approved a permitted practice allowing MEMIC to admit the full investment in MEMIC Indemnity for 2022. On October 25, 2023, legislation became effective allowing MEMIC to recognize its full investment in MEMIC Indemnity as an admitted asset. There are no differences between the Company's net income, capital and surplus as recognized under NAIC SAP and the practices prescribed and permitted by the State of Maine.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in these financial statements and notes. Actual results could differ from these estimates.

C. Accounting Policy

Direct and assumed premiums are earned on a monthly pro rata basis over the in-force period and ceded premiums are written and earned concurrently for the workers' compensation line of business. Ceded premiums for employment practices liability insurance are earned on a monthly pro rata basis over the inforce period. Accordingly, unearned premium reserves are established for the pro rata portion of direct and assumed premiums written for workers' compensation and employment practices liability insurance direct and ceded premium, which are applicable to the unexpired terms of the policies inforce, net of reinsurance. Premium adjustments resulting from retrospective rating plans and/or audits are immediately recorded as written and earned premiums once such amounts can be reasonably estimated. When the anticipated losses, loss adjustment expenses, commissions, and other acquisition and maintenance costs exceed the recorded unearned premium reserve, and any future installment premiums on existing policies, a premium deficiency reserve is recognized by recording an additional liability for the deficiency, with a corresponding charge to operations.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Net investment income earned consists primarily of interest and dividends less investment related expenses. Interest is recognized on an accrual basis and dividends are recognized on an ex-dividend basis. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed or otherwise disposed. Realized capital losses may also include writedowns for impairments considered to be other than temporary.

In addition, the Company uses the following accounting policies:

- Short-term investments are stated at amortized value using the interest method. Non-investment grade short-term investments are stated at the lower of amortized value or fair value.
- Investment grade non-loan backed bonds with NAIC designations 1 or 2 are stated at amortized value using the interest method. Non-investment grade non-loan-backed bonds with NAIC designations of 3 through 6 are stated at the lower of amortized value or fair value. See paragraph 6 for loan-backed and structured securities.
- Common stocks, including Federal Home Loan Bank (FHLB) common stock, but excluding investments in stocks of subsidiaries and affiliates, are stated at fair value.
- The Company does not currently hold any investment grade redeemable or perpetual preferred stocks or any non-investment grade preferred stocks.
- The Company does not have any mortgage loans on real estate.
- U.S. government agency mortgage-backed securities are valued at amortized value. Other mortgage-backed securities, modeled by an NAIC vendor, are valued at either amortized value or fair value, depending on the relationship of amortized value to the values generated by the modeling vendor. All other loan-backed and structured securities are valued based upon their credit rating; investment grade securities with NAIC designations of 3 through 6 are stated at the lower of amortized value or fair value. The retrospective adjustment method is used to value all securities except for interest only securities or securities where the yield had become negative, those are valued using the prospective method.
- Investment in subsidiaries and affiliated companies are stated as follows:

Insurance subsidiaries (MEMIC Indemnity Company and MEMIC Casualty Company) are stated at statutory equity value. The Company carries MEMIC Services, Inc., a 100% owned, non-insurance subsidiary at statutory equity value. Casco View Holdings, LLC (CVH), a 100% owned, non-insurance subsidiary is carried at a US GAAP equity balance.
- The Company uses the equity method to account for its interest in Inter-Atlantic Stonybrook Insurtech Ventures, LP ("Insurtech") and Inter-Atlantic Stonybrook Insurtech Ventures II, LP ("Insurtech II"), both limited partnerships. Contributions increase the value of the investment. Unrealized gains or losses are recorded based on the most recent audited US GAAP financial statements of the entity. Distributions are recorded as investment income to the extent there are previously recorded unrealized gains. Distributions in excess of unrealized gains are recorded as a reduction to the investment.

NOTES TO FINANCIAL STATEMENTS

- 9 The Company does not currently participate in any derivative transactions.
- 10 The Company anticipates investment income as a factor in the premium deficiency evaluation.
- 11 Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amounts are adequate, the ultimate liabilities may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- 12 The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, other equipment, and leasehold improvements. Data processing equipment, operating system software, and non-operating system software, with a useful life of greater than one year and in excess of \$3,000 per item including tax, shipping, and installation are capitalized and depreciated over their useful life. Maintenance contracts, computer licenses, and other miscellaneous amounts paid in advance and in excess of \$10,000 are considered prepaid expenses and amortized over the specific contract terms.
- 13 Not applicable as the Company does not write major medical insurance with prescription drug coverage.

D. Going Concern

Management did not note any specific conditions beyond those factors inherent in insurance, such as investment management, underwriting and claims management, that raised any doubt about the Company's ability to continue as a going concern. Management believes the Company is in a position to meet future obligations as they come due. The Company maintains a high-quality fixed income portfolio, adequate reinsurance retention and consistent underwriting and claims management practices.

The fixed income portfolio remains stable and is well diversified. Fixed income maturities during 2024 will provide adequate cash flows for the Company to continue operations in the event of a decrease in cash flow from premiums. The Company is a member of the FHLB. The Company is authorized by the Board of Directors to borrow up to 5% of net admitted assets as of December 31, 2023, to meet operating obligations, should the need arise. Cash flows for the Company are stable.

NOTES TO FINANCIAL STATEMENTS

The Company has adopted a qualified defined contribution pension, 401(k) and profit sharing plan (the Plan) covering substantially all full-time employees who meet the plan's eligibility requirements. If approved by the Board of Directors, the pension component of the defined contribution plan is determined to be 3-6% of the covered employees' annual eligible compensation. Employees become eligible to participate upon completion of three months of service and are fully vested in the plan after three years of service. The amount expensed for the pension related portion of the Plan was approximately \$2,360,501 and \$2,284,536 in 2023 and 2022, respectively.

With respect to the tax deferred employer profit-sharing component of the Plan, each eligible participant may receive a profit-sharing contribution in an amount to be determined by the Board of Directors not to exceed 6% plus an additional allocation for employees earning more than the taxable wage base. The Company incurred \$2,873,084 and \$2,745,906 of expense related to the tax deferred employer profit-sharing component of the Plan in 2023 and 2022, respectively.

In 2023 and 2022, with respect to the employer matching component of the Plan, the Company will contribute an amount up to 100% of the employees' 401(k) contributions to a maximum of 5% of an employee's annual compensation. An employee's contribution may not exceed 60% of their annual salary or the maximum amount allowed as determined by the Internal Revenue Code. These Company contributions become fully vested after five years. The Company incurred \$2,231,562 and \$2,071,570 of expense related to the employer matching component of the Plan in 2023 and 2022, respectively.

The Company sponsors a non-qualified, deferred compensation plan (the Compensation Plan) and trust for certain key executives providing for payments upon retirement, death or disability. The Compensation Plan permits eligible officers to defer a portion of their compensation. The Compensation Plan provides that, in the event of liquidation of the Company, all assets of the Compensation Plan will be available to meet the obligations of the Company. Included in common stocks and other liabilities are amounts of \$12,915,306 and \$12,325,817 at December 31, 2023 and 2022, respectively, related to the Compensation Plan. In accordance with NAIC SAP, the increase or decrease in market value of the assets of the Plan are recorded into income or expense to the Company. Related to the Compensation Plan, the Company incurred expense of \$2,570,909 during 2023 and reversed previously recognized expense of \$2,382,055 during 2022.

A Long Term Incentive Plan ("LTIP") was established by the Compensation Committee of the Board of Directors (the "Committee") effective January 1, 2018, for certain members of management and highly compensated individuals (Participants). Participants are granted a fixed dollar base award (the "Award") contingent upon a three year rolling calculation of the direct combined ratio on the workers' compensation line of business as determined by the external actuary for ultimate loss and loss adjustment expense, and internally prepared management reports, as agreed upon by the Committee, for general expenses and unallocated loss adjustment expenses. The 2021, 2022 and 2023 Awards may range from 0% to 200%. Participants vest in each plan over three years, or a shorter period, under certain established conditions. The Company has incurred \$2,006,576 and \$2,063,399 of expense related to the LTIP in 2023 and 2022, respectively.

H. Postemployment Benefits and Compensated Absences

The Company has no obligations to current or former employees for benefits after their employment but before their retirement other than for compensation related to earned vacation pay. The liability for earned but untaken vacation pay has been accrued.

C. Dividend Restrictions

Under the insurance regulations in Maine, the maximum amount of ordinary dividends that the Company may pay to policyholders in a twelve month period is limited to the greater of 10% of the most recent year-end policyholders' surplus or the net income for that same year-end excluding realized capital gains. Accordingly, the maximum amount of ordinary dividends that the Company may pay to policyholders during 2023 and 2022 is \$52,385,565 and \$52,690,819, respectively. Dividends above this amount would be deemed extraordinary and may not be paid unless 1) not disapproved by the Superintendent of Insurance of Maine within 30 days of receiving notice of the declaration thereof or 2) approved within that thirty day period.

D. Dates and Amounts of Dividends Paid

An ordinary mutual policyholder dividend of \$18,000,000 was declared by the Board of Directors on September 29, 2023. The entirety of this dividend declaration was paid to eligible policyholders in November 2023.

E. Amount of Ordinary Dividends That May Be Paid

Other than the limitations described above in paragraph 3, there are no limitations on the amount of ordinary dividends that may be paid other than the general restriction under the insurance regulations of Maine that no dividend (ordinary or extraordinary) may be declared or paid from any source other than unassigned funds without approval of the Superintendent of Insurance of Maine.

F. Restrictions on Unassigned Funds

There were no restrictions on the unassigned funds of the Company other than those described above in paragraphs 3 and 5 above and these unassigned funds were held for the benefit of the owner and policyholders.

Effective December 31, 2022, the MBOI authorized the Company to conclude the return of capital contributions program. B. Assessments

(1) Liability and Related Asset

The Company is subject to guaranty fund and other assessments by the states in which it writes business. Most assessments are recorded at the time the assessments are levied or, in the case of premium-based assessments, at the time the premiums are written or, in the case of loss-based assessments, at the time the losses are incurred. Insurance company insolvencies in states where the Company writes business may result in guaranty fund assessments on future premiums. These assessments will be recorded as future premiums are written. Certain assessments that are unknown to the Company are accrued at the time of assessment.

The Company accrued a liability for guaranty fund and other assessments of \$484,578 and \$485,965 and no related premium tax benefit asset as of December 31, 2023 and 2022, respectively. The amounts recorded represent management's best estimates based on assessment rate information received from the states in which the Company writes business and the direct premiums written in those states. The liability is included in the taxes, licenses and fees liability and will likely be paid in the next year. The following table reflects the current year change in the premium tax benefit asset. The Company does not have the ability to recover assessments through policyholder surcharges so no related asset is recorded.

The Company routinely assesses the collectability of these receivables. Based upon Company experience, any uncollectible premiums receivable as of the end of the current year are not expected to exceed non-admitted amounts totaling \$3,166,789. The potential for any additional loss is not believed to be material to the Company's financial position and no additional provision for uncollectable amounts has been recorded.

Lawsuits arise against the Company in the normal course of business. Contingent liabilities arising from litigation, income taxes, and other matters are not considered material in relation to the financial position of the Company. The Company is contingently liable under certain immaterial structured settlement agreements (see note 27A).

NOTE 20 Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value

(1) Fair Value Measurements at Reporting Date

The Company categorizes its assets and liabilities, that are reported on the Statements of Admitted Assets, Liabilities, and Capital and Surplus at fair value, into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. (Investments reported at NAV shall not be captured within the fair value hierarchy but shall be separately identified). The three levels are defined as follows:

Level 1 - Quoted Prices in Active Markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, includes exchange-traded preferred and common stocks. The estimated fair value of the equity securities within this category are based on quoted prices in active markets and are thus classified as Level 1.

Level 2 - Significant Other Observable Inputs: This category, for items measured at fair value on a recurring basis, includes bonds, surplus debentures, and FHLB stock, which are not exchange-traded. The estimated fair values of some of these items were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered actively traded.

Level 3 - Significant Unobservable Inputs: The Company has no assets or liabilities at fair value in this category.

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total
a. Assets at fair value					
Bonds		\$ 4,642			\$ 4,642

Total assets at fair value/NAV	\$ 128,694,470	\$ 549,842	\$ -	\$ -	\$ 129,244,312

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total
b. Liabilities at fair value					
Total liabilities at fair value	\$ -	\$ -	\$ -	\$ -	\$ -

(2) Fair Value Measurements in (Level 3) of the Fair Value hierarchy

The Company has no assets or liabilities measured at fair value in the Level 3 Category

(3) Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. During the current period, no transfers into or out of Level 3 were required.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Bonds carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations as quoted markets prices for similar instruments in an active market were utilized. This was accomplished by the use of matrix pricing. Matrix pricing takes quoted prices of bonds with similar features and applies analytic methods to determine the fair value of bonds held. Features that are inputs into the analysis include duration, credit quality, tax status and call and sinking fund features.

FHLB membership stock, which is carried at fair value, was categorized as Level 2 using a market approach. These valuations were determined to be Level 2 valuations because quoted market prices for identical instruments trading in an inactive market were utilized. When an equity instrument is illiquid due to limited trading activity, the use of quoted markets prices for identical instruments was determined by the Company to be the most reliable method to determine fair value.

The Company has no assets or liabilities measured at fair value in the Level 3 category.

(5) Derivative Fair Values

Not applicable

B. Fair Value Reporting under SSAP 100R - Fair Value and Other Accounting Pronouncements

The Company does not currently use NAV as a measurement method when reporting an investment at fair value.

C. Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall.

The table below reflects the fair values and admitted values of all admitted assets and liabilities that are financial instruments excluding those accounted for under the equity method (subsidiaries, joint ventures, partnerships and limited liability corporations). The fair values are also categorized into the three-level fair value hierarchy as described above in Note 20A.

F. Subprime Mortgage Related Risk Exposure

(1) Subprime Mortgage Exposures

The Company invests in several asset classes that could potentially be adversely affected by subprime mortgage exposure. These investments may include mortgage loans, mortgage-backed securities, and equity investments in financial institutions. The Company believes that its greatest exposure is to unrealized losses from declines in asset values versus realized losses resulting from defaults or foreclosures. Conservative lending and investment practices limit the Company's exposure to such losses.

(2) Direct exposure through investments in subprime mortgage loans.

Not applicable, the Company does not directly invest in subprime mortgage loans.

(3) Direct exposure through other investments.

The Company has several other investment classes that may have subprime mortgage exposure including:

- Residential mortgage-backed securities;
- Structured loan-backed securities;
- Debt obligations of unaffiliated financial institutions participating in subprime lending practices;
- Unaffiliated equity securities, common, issued by financial institutions participating in subprime lending.

The Company reviewed its mortgage-backed security portfolio and determined that all of these investments reside in pools that are backed by loans made to well qualified borrowers or in tranches that have minimal default risk. All bonds held that were issued by financial institutions participating in subprime lending activities are investment grade quality. Default risk on these bonds appears minimal. The impact on these investments should the subprime credit crisis worsen cannot be assessed at this time. The following is a summary of the Company's other investments with subprime exposure and OTTI recognized

NOTE 24 Retrospectively Rated Contracts & Contracts Subject to Redetermination

A. Method Used to Estimate

The Company sells workers' compensation policies for which the premiums vary based on loss experience. Future premium adjustments for these retrospective policies are estimated and accrued. The Company estimates these accrued retrospective premium adjustments through the review of each individual retrospectively rated risk, comparing case basis loss development with that anticipated in the policy contracts to arrive at the best estimates of return or additional retrospective premiums. The Company does not currently have any retrospectively rated policies.

B. Method used to Record

The Company records the retrospective premium accruals as earned by adjusting unearned premiums. These amounts are not recorded as premiums written until they are billed to the policyholders. Return premiums are recorded as liabilities and additional premiums are recorded as assets.

NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses

A. Reserves for incurred losses and loss adjustment expenses attributable to insured events as of December 31, 2022, were \$420,289,000. As of December 31, 2023, \$72,127,000 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$335,511,000 as a result of the re-estimation of unpaid claims and claim adjustment expenses principally on the workers' compensation line of business. Therefore, there has been \$12,651,000 of favorable prior year development since December 31, 2022. This decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims. There was no impact on reserves or surplus as a result of development of retrospectively rated policies.
