NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern
A. Accounting Practices

The accompanying financial statements of State Mutual Insurance Company have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners and the State of Maine.

The Maine Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of Maine for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under Maine Insurance Law. The National Association of Insurance Commissioners (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Maine to the extent that it does not conflict with Maine's prescribed or permitted practices.

There are no differences between NAIC SAP and Maine's prescribed practices in accounting that affect the accompanying financial statements of the Company.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of the premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance. Expenses incurred in connection with acquiring new business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received.

In addition, the Company uses the following accounting policies:

- 1) Short-term investments are stated at amortized value using the interest method. Non-investment grade short-term investments are stated at the lower of amortized value or fair value.
- 2) Bonds not backed by other loans are stated at amortized value using the scientific interest method. Non-investment grade bonds are stated at the lower of amortized value or fair value. Mandatory convertible bonds are stated at amortized value until the period prior to conversion, at which time they are valued at the lower of amortized value or fair value. SVO identified bonds are stated at actual market value.
- 3) Common stocks are stated at market value.
- 4) Preferred stocks are stated in accordance with NAIC SVO standards.
- 5) The Company has no mortgage loans.
- 6) Loan-backed securities are stated at amortized value. The retrospective adjustment method is used to value all loan-backed securities. However, the prospective adjustment method is applied when loan-backed securities are written down due to other-than-temporary impairment.
- 7) The Company has no investments in affiliates.
- 8) The Company has no investments in joint ventures, partnerships or limited liability companies.
- 9) The Company has no derivatives.
- 10) The Company anticipates investment income in its premium deficiency calculation.
- 11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount to be adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.
- 12) There was no change in the Company's capitalization policy.
- 13) The Company has no receivables for Pharmaceutical Rebates.

D. Going Concern

Based upon an evaluation of relevant conditions and events, management does not have substantial doubt about the Company's ability to continue as a going concern.
