Effective January 1, 1997, the State of Maine became a participating member in the **International Fuel Tax Agreement (IFTA)**. This program enables you to use your base state to license for fuel tax reporting for all states and provinces. You will have one fuel tax license and registration. You also will file only one quarterly fuel tax report to the base state covering travel in all IFTA jurisdictions. The base state (Maine) will distribute both taxes and information to these jurisdictions on your behalf. If you are a Maine interstate carrier, Maine should be your base state.

After your application has been processed, you will receive a set of decals for each truck and **one IFTA license**. A photocopy of the license must be carried in the cab of each qualified vehicle in the fleet.

All IFTA licensees are required to file fuel tax reports. *Filing is required even if no travel occurred during the reporting period!* Failure to receive the authorized report form does not relieve the licensee from the obligation of submitting a report. Renewal of an IFTA license will be denied if the carrier has failed to file any quarterly report or is delinquent in any fuel tax payments.

QUALIFIED VEHICLES

The following qualified vehicles are required to display fuel decals and report fuel consumption. Trucks, buses, and Special Mobile Equipment operating in two or more IFTA jurisdictions and having:

- ◆ An actual gross vehicle weight (GVW) or registered gross vehicle weight exceeding 26,000 pounds, or;
- ◆ Three or more axles on the power unit-regardless of weight;
- ◆ A combined gross vehicle weight or combined registered gross vehicle weight exceeding 26,000 pounds, or;
- ◆ Buses designed to carry 20 or more passengers.

** Recreational Vehicles are exempt from IFTA fuel tax reporting **
